COURSE CONTENT

Outcomes and Objectives:

- 1. Identify basic musculo-skeletal anatomy and muscle actions
- 2. Demonstrate proper form and technique in use of all resistance training equipment
- 3. Explain the use of specific muscle groups in relation to various resistance exercises
- 4. Construct an individualed resistance training plan
- 5. Create short and long term fitness goals
- 6. Assess personal fitness level
- 7. Explain proper safety considerations in resistance training
- 8. Explain modifications, progressions, and regressions for resistance training exercises

Topics and Scope:

- I. Basic musculo-skeletal anatomy
- II. Orientation to equipment
 - A. Machines
 - B. Free weightsC. Stability balls

 - D. Medicine balls
 - E. Exercise bands and tubes
 - F. Bars
 - G. Cables
- III. Proper body mechanics, technique, form and safety considerations for resistance exercises
- IV. Types of muscular actions
 - A. Concentric
 - B. Eccentric
 - C. Isometric
 - D. Isotonic
- V. Fitness assessment
 - A. Baseline
 - B. Post-test

- VI. Program design based on fitness level and goals
 - A. Body fat reduction
 - B. Increasing lean body mass (muscle)
 - C. Sport specific performance
 - D. Muscular strength and endurance
- VII. Appropriate modifications and progressions based on fitness level
- VIII. Core training exercises

Assignment:

- 1. Short term and long term goal setting (2 4 per semester, 1 2 pages each)
- 2. Development of a resistance training program
- 3. Fitness assessments
- 4. 1-3 exams or quizzes
- 5. Performance exam(s) (1 3)
- 6. Fitness journal (1 entry per week)
- 7. 1-2 hours of exercise outside of class per week

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Short term and long term goals, fitness journal/record

Writing 5 - 25%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Resistance Training Program Design

Problem solving 5 - 25%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, fitness assessments

Skill Demonstrations 5 - 25%

Exams: All forms of formal testing, other than skill performance exams.

Exams, Quizzes

Exams 15 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance, outside exercise

Other Category 40 - 60%
