Title 5 Category: AA Degree Applicable

Grading: P/NP Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: NRV 52AL

Catalog Description:

A second semester clinical course preparing students to practice vocational nursing. Principles learned in prerequisite and corequisite theory and skills courses are applied to the care of patients in acute medical-surgical, ambulatory mental health and pediatric settings. The focus is broadened to include more aspects of patient care, such as perioperative, mental health and pediatric care. Orem's Self-Care deficit theory is the basis for applying the nursing process for the assigned medical-surgical, mental health, and pediatric clients.

Prerequisites/Corequisites:

Course Completion of NRV 51 and Concurrent Enrollment in NRV 52.1 and NRV 52.2 and NRV 52.2L and NRV 58B

Recommended Preparation:

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Apply theoretical knowledge at an intermediate level to nursing care of the adult/geriatric, mental health and pediatric client.
- 2. Perform culturally sensitive nursing care at an intermediate level as a member of the multidisciplinary team for the adult/geriatric, mental health and pediatric client.
- 3. Communicate effectively, both verbally and in writing at an intermediate level with clients and staff in the adult/geriatric, medical surgical, mental health, and pediatric settings.

Objectives:

Upon completion of this course, students will be able to:

- 1. Care for medical surgical, mental health, and pediatric clients within the VN scope of practice.
- 2. Prioritize and organize care of 2-4 patients in the acute setting and demonstrate appropriate skills for clients in ambulatory settings.
- 3. Apply culturally sensitive care.
- 4. Provide safe care in a professional and ethical manner for clients and families.
- 5. Document accurately with an increased ability to evaluate outcomes.
- 6. Contribute to the nursing care plans and develop patient-centered teaching skills.
- 7. Communicate effectively as a member of the multi-disciplinary team.

Topics and Scope:

- 1. Maintaining a safe environment within the Vocational Nursing (VN) scope of practice
- a) orientation to the clinical setting
- b) physical environment
- c) fire, safety, disaster protocols, emergency codes and equipment
- d) members and roles of the health care team
- e) professional communication with health care team, clients and families
- f) documentation
- 2. Collection of patient information
- a) co-morbidities
- b) medical history
- c) present illness
- d) psycho-social/cultural
- 3. Nursing care of medical surgical pediatric and mental health clients using the nursing process with conditions affecting
- a) musculoskeletal and neurological
- b) circulatory and respiratory
- c) integumentary and sensory
- d) digestive and reproductive
- e) urinary and endocrine
- f) psychopathology of mental health clients
- 4. Nursing care of the perioperative surgical client
- a) Preoperative
 - I. transporting patients
 - II. patient emotional support
- b) Post-operative
 - I. monitoring vital signs
 - II.charting and reporting
- 5. Nursing care and nursing care plans of the adult medical surgical, mental health and pediatric client.
- 6. Clinical pathways and teaching protocols for
- a) complex medications regimens
- b) physical assessment
- c) various medical surgical, pediatric, and mental health disease states
- d) culturally appropriate care
- 7.Increased responsibility for patient care and assessments in a variety of settings
- a) increased number of patients
- b) developmentally age appropriate patient education
- c) developmentally age appropriate techniques for medication administration
- d) immunization schedules for children of all ages
- e) growth and development charting
- f) child rearing concerns

Assignment:

- 1. Clinical documentation, competency completion, and clinical evaluations in the acute care and ambulatory setting rotation (3-6)
- 2. Mid and final evaluations
- 3. Clinical case scenarios and concept maps (6)
- 4. Multi-media assignments (4-8)
- 5. Program portfolio (ongoing)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Program portfolio

Writing 5 - 10%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Concept maps, case scenarios, and multi-media assignments

Problem solving 10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Clinical documentation, competency completions, evaluations

Skill Demonstrations 70 - 85%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams 0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category 0 - 0%
