Catalog Description:

Course covers the fundamentals of human anatomy and physiology. Intended for students in dental assisting and medical assisting programs.

Prerequisites/Corequisites:

Recommended Preparation: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Describe the structure of the major organs and organ systems of the human body.
- 2. Summarize the major functions of the body in the context of homeostasis.

Objectives:

Upon completion of this course students will be able to:

- 1. Explain the basic structural plan of the human body and the concept of homeostasis.
- 2. Name the organ systems, identify the major organs, and describe their functions.
- 3. Summarize the structures and functions necessary to accomplish movement of the body.
- 4. Compare how body-wide communication is accomplished by the nervous and endocrine systems.
- 5. Describe the structure and functions of the eye and ear.

6. Name the factors essential for life, and describe how they are supplied, transported and regulated inside the body.

- 7. Compare the various structures and processes used for defense against injury and infection.
- 8. Describe human reproductive structures and functions.

Topics and Scope:

- I. Introductory concepts
 - A. levels of biological organization
 - B. anatomical terminology
 - C. body planes, cavities
 - D. homeostasis
- II. Cells, tissues, organs
 - A. cells
 - 1. organelles
 - 2. macromolecules
 - 3. cell membranes
 - B. tissues
 - C. organs

D. skin

III. Support and movement

- A. Skeletal system
 - 1. bones
 - 2. joints
 - 3. hemopoiesis
- B. Muscular System
 - 1. muscles
 - 2. movement
- IV. Control systems
 - A. Nervous system
 - 1. neurons and synapses
 - 2. CNS central nervous system
 - 3. PNS peripheral nervous system
 - 4. special senses: eye and ear
 - B. Endocrine system
 - 1. endocrine glands
 - 2. hormones
- V. Internal environment
 - A. Circulation
 - 1. cardiovascular system
 - 2. lymphatic system
 - B. Immune system
 - 1. inflammation
 - 2. specific immune response
 - C. Respiratory system
 - 1. lungs, thoracic cavity
 - 2. regulation of respiration
 - D. Urinary System
 - 1. kidneys & nephrons
 - 2. urine formation
 - 3. regulation: water, salt, pH, blood pressure
 - E. Digestive system
 - 1. gastrointestinal tract and accessory glands
 - 2. digestion
- VI. Reproduction
 - A. male reproductive structures and functions
 - B. female reproductive structures and functions

Assignment:

- 1. Weekly reading in text, 25-30 pages
- 2. Study of charts, models, and specimens during lab hours
- 3. Performance of simple physiological lab exercises

4. Homework assignments: brief reports on lab activities, labeling diagrams; averaging one assignment every week

5. Formal assessment: 9-12 quizzes, 2 midterm exams and 1 final exam including objective, labeling, and questions requiring short written answers

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because this course includes essay exams that fulfil the writing component of the course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, completion, labeling and essay

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation in Lab

Representative Textbooks and Materials:

Anatomy, Physiology, and Disease: An Interactive Journey for Health Professions, Colbert, Ankney, Lee, Prentice Hall; 2nd edition, 2012 Instructor Prepared Materials

Writing 0 - 0%
