		Contact DHR	0		Contact DHR	0
		Contact Total	3.00		Contact Total	52.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 52.50

Total Student Learning Hours: 105.00

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As: ERTHS 85.1

Formerly:

Catalog Description:

A survey of the natural history of the Pepperwood Preserve, emphasizing earth sciences and native cultures (offered Fall semester only). Laboratory hours are primarily in the field and will include hiking over uneven terrain. This course (along with BIO/ERTHS 85.2) is a component of the Pepperwood Preserve Steward training program.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 1A or equivalent

Limits on Enrollment:**Schedule of Classes Information:**

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Describe the role of science in understanding natural history.
2. Relate knowledge of natural history to becoming a naturalist, a nature preserve docent, and/or a land steward.
3. Integrate knowledge about the interconnectedness of abiotic and biotic factors (including human) and their influence on the natural history of Pepperwood Preserve.
4. Demonstrate skills in making and recording natural history observations in a field journal.

Objectives:

Upon completion of the course, students will be able to:

1. Explain the discipline and scope of natural history.
2. Interpret the land use and natural history of the Pepperwood Preserve.
3. Orient oneself to the geography of the Pepperwood Preserve.
4. Record field observations in a field journal.
5. Interpret the geologic history, including the formation of rocks and soil in the Pepperwood Preserve.
6. Identify common rocks at the Pepperwood Preserve.
7. Correlate climatic factors with local weather patterns.
8. Describe factors affecting water movement and accumulation in the landscape.
9. Describe the influence of abiotic and biotic factors on vegetation patterns and ecosystem processes.
10. Relate the influence of native cultures to the natural history of the Pepperwood Preserve.
11. Demonstrate naturalist and/or land steward skills.

Topics and Scope:

- I. Introduction to Natural History

- A. The discipline of natural history and the scientific method
- B. Natural history of Pepperwood
 - 1. Overview of regional and local natural history at Pepperwood
 - 2. Land use history at Pepperwood
 - 3. Orientation to the preserve
- C. Field journal
- II. Geology
 - A. Overview of geology
 - 1. Plate tectonics
 - 2. The rock cycle and rock types at Pepperwood
 - B. Brief geologic history of California and Sonoma County
 - 1. Coastal ranges geologic setting
 - 2. Regional and local fault systems
 - C. Common igneous, sedimentary and metamorphic rocks at Pepperwood Preserve
- III. Weather and Climate
 - A. Insolation and temperature
 - B. Air pressure and wind
 - C. Atmospheric moisture
 - D. Regional climate and the microclimates of Pepperwood
- IV. Soils
 - A. Soil profiles and horizons
 - B. Soil properties
 - C. Soil formation
 - D. Sonoma County and Pepperwood soil regions
- V. Hydrology
 - A. Hydrologic cycle
 - B. Groundwater
 - 1. Groundwater movement
 - 2. Groundwater resources at Pepperwood
 - C. Surface water
 - 1. Surface water movement
 - 2. Surface water resources at Pepperwood
- VI. Vegetation and Ecosystem Ecology
 - A. Ecological determinants of vegetation patterns
 - B. Vegetation patterns in Sonoma County and at Pepperwood
 - C. Ecosystems processes
 - 1. Trophic levels and food webs
 - 2. Energy flow and nutrient cycles
- VII. Archaeology and Native American Culture
 - A. Ethnography of native peoples in Sonoma County
 - B. Traditional cultural uses of the Pepperwood biota
 - C. The Pepperwood collection of cultural resources and obsidian stone tool technology
 - D. Archeological field survey of the cultural resources of the Pepperwood Preserve
- VIII. Methods of Natural History Interpretation
 - A. Effective oral communication for target audience
 - B. Use of demonstration materials
 - C. Planning of interpretation event for target audience

Assignment:

- 1. Readings from selected journal papers and texts, 20-30 pages per week
- 2. Quizzes (3-5): multiple choice and short answer questions

3. Oral presentation demonstrating skills as a natural history interpreter
4. Completion of a field journal
5. Final exam: multiple choice and short answer questions

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Field journal

Writing
20 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Oral presentation

Skill Demonstrations
10 - 20%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and final exam

Exams
40 - 50%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance

Other Category
10 - 20%
