Major Applicable Course

## **COURSE CONTENT**

## **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Demonstrate proper techniques to safely and successfully engage in resistance training activities
- 2. Create and implement a progressive resistance training program incorporating a variety of equipment based on individual fitness level and goals

#### **Objectives:**

- 1. Identify basic musculo-skeletal anatomy and muscle actions
- 2. Demonstrate proper form and technique in use of all resistance training equipment
- 3. Explain the use of specific muscle groups in relation to various resistance exercises
- 4. Construct an individualed resistance training plan
- 5. Create short and long term fitness goals
- 6. Assess personal fitness level
- 7. Explain proper safety considerations in resistance training
- 8. Explain modifications, progressions, and regressions for resistance training exercises

#### **Topics and Scope:**

- I. Basic musculo-skeletal anatomy
- II. Orientation to equipment
  - A. Machines
  - B. Free weights
  - C. Stability balls
  - D. Medicine balls
  - E. Exercise bands and tubes
  - F. Bars
  - G. Cables
- III. Proper body mechanics, technique, form and safety considerations for resistance exercises
- IV. Types of muscular actions

- A. Concentric
- B. Eccentric
- C. Isometric
- D. Isotonic
- V. Fitness assessment
  - A. Baseline
  - B. Post-test
- VI. Program design based on fitness level and goals
  - A. Body fat reduction
  - B. Increasing lean body mass (muscle)
  - C. Sport specific performance
  - D. Muscular strength and endurance
- VII. Appropriate modifications and progressions based on fitness level
- VIII. Core training exercises

## **Assignment:**

- 1. Short term and long term goal setting (2 4 per semester, 1 2 pages each)
- 2. Development of a resistance training program
- 3. Fitness assessments
- 4. 1-3 exams or quizzes
- 5. Performance exam(s) (1 3)
- 6. Fitness journal (1 entry per week)
- 7. 1-2 hours of exercise outside of class per week

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Short term and long term goals, fitness journal/record

Writing 5 - 25%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Resistance Training Program Design

Problem solving 5 - 25%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, fitness assessments

Skill Demonstrations 5 - 25%

**Exams:** All forms of formal testing, other than skill performance exams.

Exams, Quizzes

Exams 15 - 30%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance, outside exercise

Other Category 40 - 60%

**Representative Textbooks and Materials:** Fitness Illustrated, 1st Edition. Brian Sharkey. Human Kinetics: 2011 Instructor prepared materials
