## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Design age-appropriate activities to support play in early education settings.
2. Articulate a rationale for the importance of constructive play in early childhood.
3. Utilize observations in designing constructive play environments and curriculum.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Define the role play, including constructive play, has in a child's overall development.
2. Define the characteristics of constructive play and apply them to plan and facilitate developmentally appropriate, play-based experiences for all children.
3. Create environments that facilitate the child's exploration and creative use of materials.
4. Explore innovative and non-standard materials that support the constructive play of young children.
5. Utilize observations of children to adapt materials and environments for various ages and abilities.

### **Topics and Scope:**

- I. Role of play in growth and development
  - A. Play and cognitive development
  - B. Play and social/emotional development
  - C. Play and physical development
  - D. Play and language development
  - E. Connections to California Infant/ Toddler and Preschool Learning Foundations
- II. Forms of play
  - A. Piaget/ Smilansky categories of play behavior
    1. Functional Play

- 2. Constructive Play
- 3. Dramatic Play
- 4. Games-With-Rules
- B. Categories of social play
  - 1. Solitary Play
  - 2. Parallel Play
  - 3. Associative Play
  - 4. Cooperative Play
  - 5. Onlooker Play
- C. Play skills
- III. Developmentally appropriate play experiences
  - A. Teacher-directed experiences
  - B. Child-initiated experiences
- IV. Constructive Play materials and environments
  - A. Traditional materials
  - B. Innovative materials
  - C. Learning centers to support Constructive Play
  - D. Other environmental considerations
  - E. Settings for Constructive Play
    - 1. Indoor
    - 2. Outdoor
- V. Role of the teacher in supporting play
  - A. Building relationships and interacting with children
    - 1. Using observation to understand children's abilities and interests
    - 2. Facilitating play and learning
      - a. Modeling play
      - b. Using open-ended questions
  - B. Extending Constructive Play
    - 1. Using documentation
    - 2. Adding complexity through materials
    - 3. Explaining the importance of play to parents and others

### **Assignment:**

Assignments may include:

- 1. Reading of assigned articles (approximately 120 pages).
- 2. Written responses to required articles (approximately 2 responses at 2-4 pages each).
- 3. Written observations of children engaged in constructive play (2 observations of approximately 4 pages each).
- 4. Small group activity: creating a rationale for supporting constructive play.
- 5. Reflection paper on applying constructive play theory to redesign your early childhood environment.
- 6. Final exam (short answer).

### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Responses to required articles, written observations, reflection paper	Writing 40 - 60%
<b>Problem Solving:</b> Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.	
None	Problem solving 0 - 0%
<b>Skill Demonstrations:</b> All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Rationale for Constructive Play	Skill Demonstrations 10 - 15%
<b>Exams:</b> All forms of formal testing, other than skill performance exams.	
Final exam	Exams 10 - 20%
<b>Other:</b> Includes any assessment tools that do not logically fit into the above categories.	
Participation and attendance	Other Category 20 - 30%
