COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, the student will be able to:

1. Perform clinical medical assisting skills in a variety of specialty clinics or medical offices within medical assisting professional and ethical scope of practice.
2. Apply principles which have been learned in the prerequisite and corequisite theory and skills courses.
3. Demonstrate problem solving and critical thinking involving proper and safe use of equipment, procedures, and processes in a clinical setting.
4. Plan and implement care in a safe, timely, and organized manner.
5. Communicate effectively, with cultural sensitivity, with patients, physicians, and other medical staff members.
6. Demonstrate professionalism in a clinical setting.
7. Accurately document medical records.
8. Evaluate various clinical medical assisting occupational opportunities.

9. Write a resume and cover letter.
10. Interview competently for a clinical medical assisting position.

Topics and Scope:

I. Clinical externship: Clinical medical assisting experience in a variety of specialty areas, to include but not be limited to, family practice, obstetrics and gynecology, gastroenterology, head and neck surgery, dermatology, surgical clinics, wound care specialty clinic, emergency room, and/or internal medicine.

- A. Establish criteria for student evaluation
- B. Students will be:
 1. practicing within professional/ethical scope of practice for medical assistants
 2. applying concepts and utilizing techniques learned in all previous courses and clinical experiences
 3. communicating effectively with patients, instructor, and medical staff
 4. planning and implementing care in a safe, timely and organized manner
 5. administering medications safely
 6. providing culturally sensitive care
 7. maintaining patient privacy and confidentiality
 8. documenting medical records within legal standards
 9. demonstrating professional behaviors including: dependability, punctuality, cooperation, appropriate appearance, interest in and willingness to learn, and initiative

II. Clinical conferences

- A. Orientation to clinical medical assisting externship
 1. procedures and evaluations
 2. expectations
 3. assigned experience
- B. Analysis of skills and problem solving related to clinical medical assisting practice
- C. Resume writing and preparation for employment
- D. Preparation and completion of application form for California
- E. Certified Medical Assistant exam.

Assignment:

1. Complete the required number of hours during assigned clinical medical assisting externship in a medical facility under the supervision of clinical instructor or designated clinical supervisor.
2. Maintain a timesheet.
3. Maintain weekly journal.
4. Participate in post-clinical conferences, with instructor (and peers in outpatient clinics).
5. Discuss clinical experience, participate in problem-solving exercises, and roleplay interpersonal conflicts and communication challenges during clinical conferences.

6. Demonstrate clinical aptitude by accurately and safely performing clinical medical assisting skills.
7. Complete 5-25 written homework assignments from clinical setting relating to clinical procedures, OSHA standards, laboratory techniques, pharmacology, and administration of medications.
8. Write a resume and cover letter.
9. Roleplay job interview skills.
10. Adhere to standards of professionalism: dependability, punctuality, cooperation, appropriate appearance, interest in and willingness to learn, and initiative.
11. Participate in final performance evaluation with instructor, including clinical supervisor's input.
