COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Use HTML and CSS code that meets current industry standards to create a simple website.
2. Apply appropriate terminology to describe basic web development concepts.

Objectives:

Upon completion of the course, students will be able to:

1. Create a simple website.
2. Develop webpages that utilize the HTML elements that address the following functions: basics document structure, head elements, text markup, site navigation, images, div and span structure, semantic elements, tables, forms.
3. Develop webpages that utilize CSS to control the appearance of the site. Students will use these CSS property groups: text and font, color and background, the box model, position and display, lists, tables.
4. Develop webpages that utilize the CSS concepts of the cascade and inheritance of browser, external, embedded and inline CSS.
5. Students will correctly use the CSS elements of selectors, declarations, properties, values. Classes and id's will be stressed.
6. Summarize the following website development concepts: element, attribute, element

nesting, asset path, style, rule, selector, declaration, property, and value.

Topics and Scope:

I. Basic Document Structure

- A. DOCTYPE html, head, title, body, meta, h1 - h6, br and p elements
- B. Definitions: element, tag, opening element, closing element, stand alone elements, attributes, element syntax, page content
- C. Hypertext markup language
- D. Uploading webpages to a server
- E. Roles of web servers and web browsers
- F. Proper nesting of elements
- G. Structure vs. presentation

II. Navigation

- A. Links using relative paths
- B. Links using complete URLs (Uniform Resource Locators)
- C. Links to id's within a webpage
- D. Navigation bars
- E. Validating HTML (HyperText Markup Language) code to the HTML 5 standard
- F. Email link

III. HTML Structural Elements

- A. Strong
- B. Em
- C. Pre
- D. Blockquote
- E. Unordered Lists
- F. Ordered Lists
- G. Definition Lists
- H. Special Characters

IV. Images

- A. Images sources - downloading from a website, digital camera, smart phones. Copyright overview
- B. Using the img element to insert images into a webpage
- C. The src, alt, height, and width attributes
- D. Joint Photographic Experts Group vs. Portable Network Graphics vs. Graphic Interchange Format
- E. Using folders to organize a website
- F. Using image editing software to resize an image
- G. Linking thumbnail images to a web page

V. Cascading Style Sheets Usage

- A. Basic CSS rules : selector, property, value, declaration, style
- B. Inline, embedded, external and browser stylesheets
- C. Descendant and multiple selectors
- D. Inheritance
- E. The cascade
- F. Classes and id's

VI. CSS Font / Text Properties

- A. Font-family, font-size, font-weight, font-style, font-variant
- B. Text-align, text-transform, text-indent, text-decoration, color, background-color, line-height, letter spacing, word-spacing

VII. HTML Editors - Download, Use and Review

VIII. CSS (Cascading Style Sheets) Box Properties

- A. Width
- B. Padding
- C. Border
- D. Margin
- E. Background-image
- F. Background-repeat
- G. Background-position
- H. Shorthand properties: padding, margin, border, background, and font

IX. Webpage layout using CSS

- A. Float
- B. Clear
- C. Wireframe
- D. Conversion of wireframe to web site
- E. Pseudo-classes
- F. Absolute positioning
- G. Responsive design
- H. Z-index

X. Semantic Elements

- A. conversion of div elements to semantic elements
- B. header, nav, section, footer
- C. Article, aside, time
- D. CSS for screen and print

XI. Tables

- A. Table element
- B. Tr (table row)
- C. Td (table data)
- D. Th (table heading)
- E. Summary
- F. Caption
- G. Border
- H. Rowspan
- I. Colspan
- J. Styling a table using CSS
- K. Nested tables

XII. Forms

- A. Form
- B. POST and GET commands
- C. Input
 - 1. text
 - 2. submit
 - 3. radio
 - 4. checkbox
 - 5. reset
 - 6. hidden
- D. Textarea
- E. Select and option
- F. Fieldset
- G. Label
- H. Layout of forms
- I. Styling forms
- J. Form processing using an existing CGI (Common Gateway Interface) script
- K. Using hidden input elements to provide input to an existing CGI script

XIII. Commercial Website

- A. Web hosting
- B. Domain names
- C. E-commerce

Assignment:

Required Assignments:

1. Textbook reading (25 - 60 pages per week)
2. Website projects (4 - 7). All webpages must be uploaded to the student.santarosa.edu server and must validate HTML5. Each of the following must be included in at least one website project:
 - a. At least 5 pages
 - b. A standard navigation bar
 - c. Html, head, title, body, h1, h2, p, a, img, string, em, pre, br, q, blockquote, ol, ul, li, and meta elements
 - d. CSS to control border-bottom, background-color, font-family, font-size, font-weight, font-style, color, and text-decoration properties
 - e. The use of classes
 - f. Links using relative paths, links using complete URL's, and links to id's within a webpage
 - g. Thumbnails
3. Quizzes (2 - 4)

Optional Assignments:

1. Website critique(s)
2. Participation in electronic message board discussions

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Website critiques, participation in electronic message boards

Writing
0 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Website projects

Problem solving
30 - 70%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes

Exams
20 - 40%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation, attendance

Other Category
10 - 20%

Representative Textbooks and Materials:

Basics of Web Design: HTML 5 and CSS3. 3rd ed. Felke-Morris, Terry. Pearson. 2015

Head First HTML and CSS. 2nd ed. Robson, Elisabeth and Freeman, Eric. O'Reilly Media. 2012
