Both Certificate and Major Applicable

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Assemble InDesign documents into a series of booked documents and create a table of contents and index.
2. Design complex InDesign documents using advanced text formatting, path and frame techniques, the book panel, and advanced workspaces.
3. Manage the workflow from idea to printed book.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Design different types of documents, including templates, books, booklets and slideshows.
2. Output a document with advanced printing options and submit a PDF book to an online publisher.
3. Create a complex layout with multiple master pages and sections.
4. Apply advanced text composition using the full set of paragraph and character formatting features and styles.
5. Create and format tables, anchored objects and nested frames.
6. Create and edit paths and compound paths using the Pen tools and Pathfinder.
7. Enhance an InDesign workflow using glyph sets and snippets.
8. Customize InDesign and set custom defaults.

### **Topics and Scope:**

- I. Layout Techniques
  - A. Structuring special layouts and spreads
  - B. Baseline and document grids
  - C. Multiple master pages
  - D. Section formatting
  - E. Advanced layers

## II. Working with Text

- A. Cleaning up text and editing with the Story Editor
- B. Text composition and advanced formatting
- C. Advanced paragraph and character styles
- D. OpenType fonts and glyph sets
- E. Tables and table styles
- F. Conditional text

## III. Path Creation and Editing

- A. Direction Selection vs. Selection tools
- B. Pen tool
- C. Scissors tool
- D. Compound paths
- E. Creating objects from type

## IV. Complex Objects

- A. Nested frames
- B. Object styles and stroke styles
- C. Anchored objects

## V. InDesign Document Creation

- A. Designing and applying templates
- B. Multi-document books with table of contents and index
- C. Booklets

## VI. Document Management

- A. Bridge asset management
- B. Document recovery and customizing InDesign
- C. Managing multiple documents
- D. Preparing a document for high-end printing
- E. PDF creation for printshops and slideshows

## VII. Other Topics

- A. Customizing InDesign preferences
- B. Libraries and snippets

### **Assignment:**

1. Read between 10-20 pages per week from class notes, digital manuals, online references and recommended textbook
2. Redesign a flier and apply advanced paragraph and formatting techniques to fit the text to specified area of the page
3. Prepare a project proposal using OpenType fonts and glyph sets
4. Create a project timeline
5. Edit and clean up web based text with extraneous formatting for placement into a multiple page information piece
6. Prepare and format a table
7. Analyze and design a template, including the use of placeholders, master pages, styles and layers
8. Generate an automatic table of contents and index for a book of multiple chapters
9. Submit a multi-document book in PDF format for professional printing
10. Advanced project: design and create a multiple chapter project based on a template using the book panel
11. Capstone semester project: plan, manage, design, layout, and publish a hard copy book by due date
12. Take examinations, including at least two tests and a final exam

## Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing  
0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Assignments and projects (flier, project, table, booklet, template, font management)

Problem solving  
30 - 60%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Assignments, Advanced and Capstone Projects

Skill Demonstrations  
30 - 50%

**Exams:** All forms of formal testing, other than skill performance exams.

Take examinations, including at least two tests and a final exam

Exams  
10 - 30%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category  
0 - 0%
