COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Demonstrate leadership, program planning and presentation skills while developing and implementing mental health promotion programs and/or events that raise awareness about mental health, mental illness, and suicide prevention.
2. Demonstrate appropriate listening, responding, intervention and referral skills to enable peers to seek help for mental health challenges.

Objectives:

Upon completion of this course, students will be able to:

1. Describe the power of peer health promotion.
2. Compare and contrast the role of a peer mental health promoter with that of a licensed professional therapist, including personal and professional boundaries.
3. Identify and explain confidentiality guidelines.
4. Identify strategies for change in high-risk behaviors.
5. Describe the mental health first-aid action plan.
6. Describe a variety of mental health challenges such as depression, anxiety disorders, psychosis, substance use and eating disorders.
7. Describe the warning signs of a person in distress who may be experiencing a mental health challenge/crisis.
8. Demonstrate bystander intervention skills of empathy, non-judgmental listening, responding, problem solving and referral related to mental health challenges and crises.
9. Demonstrate bystander intervention skills for sexual assault prevention.
10. Demonstrate skills in program planning/implementation, leadership, collaborative teamwork, oral/written communication and public speaking.
11. Educate peers about mental health challenges in a positive, interactive, fun and nonjudgmental manner.

12. Identify 7 habits of effective peer health promotion groups.

Topics and Scope:

I. Peer Health Promotion

A. The Power of Peer Education

1. Five roles of peer promoters to create change

- F. Psychosis
 1. What is psychosis?
 2. Types, causes, intervention and resources for psychosis
- G. Substance Use Disorders
 1. What is a substance use disorder
 2. Causes, intervention and resources for substance use disorders
- H. Sexual Assault
 1. Statistics and impact
 2. Sexual assault prevention, intervention and resources
- I. Eating Disorders
 1. What are eating disorders?
 2. Types, causes, intervention and resources for eating disorders
- III. Peer to Peer Mental Health Promotion Project
 - A. Needs assessment
 - B. Development
 - C. Implementation
 - D. Evaluation
 - E. Promotion
 - F. Presentation

Assignment:

1. Read from textbook (5-20 pages per week)
2. Read instructor-selected articles (15-35 pages per week)
3. Complete chapter review questions and reflection activities at the end of each chapter
4. Practice, via role-play, effective bystander intervention and referral skills
5. Practice, via role-play, effective communication skills for non-judgmental listening
6. Demonstrate 5-8 peer health education skills (i.e. leadership, public speaking, listening, responding, referral, intervention, program planning/implementation, evaluation and marketing)
7. Write a 1-2 page paper on prevention/intervention
8. Design and conduct a needs assessment survey to identify current mental health issues
9. Working in small groups, select a mental health promotion project to develop and implement (based on outcome from needs assessment)
10. Write a 1-2 page group proposal that outlines the mental health promotion project's statement of need, goal/objectives, budget, marketing plan, and evaluation technique
11. Implement and evaluate the group mental health promotion projects

12. Write a 1-2 page paper reflecting on the mental health promotion project experience and outcome
13. Give a 10-30 minute group presentation on the project goals and outcomes
14. Complete 2-4 quizzes and final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Chapter review; prevention/intervention paper; promotion-project proposal; outcomes paper

Writing
20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Role-playing, peer health education skills, promotion project, and oral presentations

Skill Demonstrations
25 - 40%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and final exam

Exams
20 - 35%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance

Other Category
5 - 10%
