COURSE CONTENT

Student Learning Outcomes:

Upon completion of the course, students will be able to:

1. Explain the challenges of caring for a medically fragile infant, analyze problems associated with, and provide solutions for caring for such infants.

Objectives:

Upon completion of the course, students will be able to:

1. Describe the basic physiologic, environmental, emotional, and medical needs of infants.
2. Describe normal development of the fetus and how it may be affected by prenatal factors and/or prematurity/low birth weight.
3. Recognize common medical problems in premature infants, describe special problems, and discuss treatment options and help for caregivers of infants with medical problems.
4. Describe the goals of developmental care in the Neonatal Intensive Care Unit (NICU), as well as criteria for discharge.
5. Describe consequences of prenatal influences and experiences during infancy on long-term outcomes.

Topics and Scope:

- I. Basic Needs of Infants
 - A. Physiologic
 - B. Environmental
 - C. Emotional
 - D. Medical
- II. Fetal Development
 - A. Normal

- B. Abnormal - effect of prenatal factors, e.g.:
 - 1. Maternal diabetes
 - 2. Maternal infections
 - 3. Maternal medications and substance use
- III. Prematurity and Low Birth Weight
 - A. Chronic respiratory issues
 - B. Neurodevelopmental issues
 - 1. Cognitive and learning
 - 2. Motor development
 - 3. Behavioral issues
 - 4. Hearing and vision
- IV. NICU-Related Issues
 - A. Goals of developmental care in the NICU
 - 1. Simulating uterine environment
 - 2. Evidence-based practices for optimizing outcomes, e.g:
 - a. Reduction of ambient light
 - b. Reduction of exposure to sound
 - c. Positioning within incubator
 - d. Reduced stimulation
 - B. Criteria for discharge
 - 1. Apnea counts
 - 2. Weaning off medications and oxygen
 - 3. Thermal stability
 - 4. Physiologic homeostasis
- V. Consequences of Prenatal Influences and Experiences During Infancy on Long-Term Outcomes
 - A. Adverse Childhood Experiences (ACEs study)
 - B. Neurodevelopment
 - C. Behavior
 - D. School issues
 - E. Social issues
 - F. Sleep issues

Assignment:

- 1. Quick writes and journal entries (6 to 10)
- 2. Case vignettes (2 to 4)
- 3. One-page response papers (2)
- 4. Venn diagrams (2 to 3)
- 5. Optional out-of-class readings and resource research assignment

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Response paper; quick writes; journal entries

Writing 20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Case vignettes; Venn diagrams

Problem solving
20 - 30%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Active participation and attendance; optional out-of-class reading and resource research

Other Category
40 - 50%
