### CS 10A Course Outline as of Fall 2018

## **CATALOG INFORMATION**

Dept and Nbr: CS 10A Title: INTRO TO PROGRAMMING Full Title: Introduction to Programming Concepts and Methodologies

Last Reviewed: 2/8/2021

| Units   |      | Course Hours per Week |      | Nbr of Weeks | <b>Course Hours Total</b> |        |
|---------|------|-----------------------|------|--------------|---------------------------|--------|
| Maximum | 4.00 | Lecture Scheduled     | 3.00 | 17.5         | Lecture Scheduled         | 52.50  |
| Minimum | 4.00 | Lab Scheduled         | 3.00 | 6            | Lab Scheduled             | 52.50  |
|         |      | Contact DHR           | 0    |              | Contact DHR               | 0      |
|         |      | Contact Total         | 6.00 |              | Contact Total             | 105.00 |
|         |      | Non-contact DHR       | 0    |              | Non-contact DHR           | 0      |

Total Out of Class Hours: 105.00 Total Student Learning Hours: 210.00

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: CS 10

## **Catalog Description:**

Specification, design, implementation, testing, debugging, maintenance, and documentation of computer programs. Topics include algorithms, languages, software engineering, control structures, functions, and arrays. Numerous programs are written in C++. Intended for both computer science majors and for those seeking a general introduction to computer programming.

# **Prerequisites/Corequisites:**

## **Recommended Preparation:**

Eligibility for ENGL 1A or equivalent; AND completion of MATH 155 and some computer experience

## **Limits on Enrollment:**

## **Schedule of Classes Information:**

Description: Specification, design, implementation, testing, debugging, maintenance, and documentation of computer programs. Topics include algorithms, languages, software engineering, control structures, functions, and arrays. Numerous programs are written in C++. Intended for both computer science majors and for those seeking a general introduction to

computer programming. (Grade or P/NP)

Prerequisites/Corequisites:

Recommended: Eligibility for ENGL 1A or equivalent; AND completion of MATH 155 and

some computer experience Limits on Enrollment: Transfer Credit: CSU:UC.

Repeatability: Two Repeats if Grade was D, F, NC, or NP

# **ARTICULATION, MAJOR, and CERTIFICATION INFORMATION:**

AS Degree: Area Effective: Inactive: CSU GE: Transfer Area Effective: Inactive:

**IGETC:** Transfer Area Effective: Inactive:

**CSU Transfer:** Transferable Effective: Spring 1989 Inactive:

**UC Transfer:** Transferable Effective: Spring 1989 Inactive:

CID:

CID Descriptor: COMP 122 Programming Concepts and Methodology I

SRJC Equivalent Course(s): CS10A OR ČS10B

CID Descriptor: COMP 112 Introduction to Programming Concepts and Methodologies

SRJC Equivalent Course(s): CS10A

# **Certificate/Major Applicable:**

Both Certificate and Major Applicable

## **COURSE CONTENT**

## **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Describe the principles of structured programming and be able to describe, design, implement,
  - and test structured programs using currently accepted methodology.
- 2. Explain what an algorithm is and its importance in computer programming.

## **Objectives:**

Upon completion of this course students will be able to:

- 1. Create correct and efficient algorithms.
- 2. Describe the software-development life cycle.
- 3. Employ the basic elements of the C++ language.
- 4. Implement algorithms using C++ flow-control constructs.
- 5. Write descriptive and helpful program documentation.
- 6. Implement algorithms using arrays.

# **Topics and Scope:**

- I. Software life-cycle including design, development, styles, documentation, testing and maintenance
- II. Procedural versus objected oriented programming Survey of Current Languages
- III. Program Design Tools and Programming Environments

- IV. Documentation V. Coding Conventions
- VI. Data Types, Variables, Expressions, Sequential Processing
- VII. Arrays
  - A. Declaring and allocating arrays
  - B. Multiple-subscripted arrays
- VIII. Control Structure
  - A. Selective structures: if and switch
  - B. Repetitive structures: loops
- IX. Algorithms including Simple Sorting and Searching
- X. File I/O
  - A. Files and streams
  - B. Sequential access files
- XI. Error Handling
- XII. Passing Parameters by Value and by Reference
- XIII. Principles of Testing and Designing Test Data

All topics are covered in both the lecture and lab parts of the course.

## **Assignment:**

Lecture Related Assignments:

- 1. Read approximately 30 pages per week
- 2. Complete 2-8 examinations including final exam

Lab Related Assignments:

1. Complete 10-15 programming assignments, with documentation, using the C++ programming language

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written program documentation

Writing 10 - 20%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Programming assignments

Problem solving 20 - 60%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations

**Exams:** All forms of formal testing, other than skill performance exams.

| Exams, | Final Exan | n: (Multiple | choice, | true/false, | matching |
|--------|------------|--------------|---------|-------------|----------|
|        |            | programmii   |         |             | C        |

Exams 20 - 60%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

| None |
|------|
|------|

Other Category 0 - 0%

**Representative Textbooks and Materials:**Starting Out with C++ From Control Structures through Objects. 8th ed. Gaddis, Tony. Pearson. 2014
