COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Select a specific agricultural/horticultural/forestry crop, commodity, or product and develop an enterprise project using the resources at Shone Farm or other locations (with instructor's consent).
2. Apply production and management techniques, and marketing methods resulting in an eventual sale of the chosen agricultural/horticultural/forestry crop, commodity or product.

Objectives:

At the conclusion of this course, the student should be able to:

1. Investigate the feasibility of producing and marketing a specific agricultural/horticultural/forestry crop, commodity, or product.
2. Calculate facilities needed and square footage required for production.
3. Operate appropriate tools and equipment safely and correctly.
4. Develop production methods for a particular crop, commodity, or product.
5. Manage production through the life cycle of the individual crop, commodity, or product.
6. Compile accurate records of all related processes and expenses.
7. Develop a marketing plan for the production and sale of crop or commodity.
8. Prepare a statement of income and expenses for an agricultural/horticultural/forestry enterprise.

Topics and Scope:

- I. Scope of Project
 - A. Crop/commodity/product selection
 - B. Business plan
 - C. Budget
 - D. Facility needs
- II. Project Implementation
 - A. Purchasing supplies
 - B. Growing/raising/producing the crop/commodity/product
