Total Student Learning Hours: 52.50

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: AG 280.65

Catalog Description:

Introduction to livestock behavior and the evolution of behavioral traits. Introduces practical handling concepts and facilities design, to facilitate low-stress methods of livestock management. Explores the benefits of keeping animals calm, including safer working conditions, higher yields of marketable product, better-quality product, and more humane conditions.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:**Schedule of Classes Information:**

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Describe basic ethological principles pertinent to domestic farm animals.
2. Explain how to develop humane livestock handling systems and facilities.
3. Develop animal management practices based on animal behavior to improve animal welfare.

Objectives:

At the conclusion of this course, the student should be able to:

1. Recognize and understand basic terms and concepts of livestock behavior, including the history and science of ethology.
2. Identify and understand the basic processes that shape livestock behavior.
3. Assess the relevance of livestock behavior to humane handling.
4. Apply critical thinking and problem-solving skills to develop humane livestock handling systems and facilities.
5. Develop an understanding of applied animal behavior as it relates to the management and welfare of livestock and poultry

Topics and Scope:

I. Ethology

A. Principles

B. Domestication

C. Ethics

D. History

II. Animal Handling

A. Benefits of Humane Handling

B. Working conditions

- C. Handling Facilities
 - 1. Design
 - 2. Location
 - 3. Layout
- D. Restraint Practices
- E. Transportation
- III. Behavior
 - A. Animal Perception
 - B. Genetic influence
 - C. Learned Behavior
 - D. Stress
- IV. Application of Animal Behavior in Management
 - A. Enrichment
 - B. Housing
 - C. Research

Assignment:

1. Read periodicals, handouts, and texts (20 to 30 pages per week)
2. Writing assignments including ethograms
3. Facilities design
4. Quizzes and tests (4-5), mid-term and final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Writing assignments, ethograms

Writing
20 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Facilities design

Problem solving
40 - 55%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
25 - 40%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%

Representative Textbooks and Materials:

Principles of Animal Behavior. 3rd ed. Dugatkin, Lee Alan. W. W. Norton & Company. 2013 (classic)

The Ethology of Domestic Animals (2nd). Jensen, Per. Oxford University Press. 2009 (classic)

Humane Livestock Handling: Understanding Livestock Behavior and Building Facilities for

Healthier Animals. Grandin, Temple. Storey Publishing, LLC. 2008 (classic)

Animal Domestication and Behavior. Price, Edward. Cabi. 2002 (classic)

Social Behaviour in Farm Animals. Keeling, Linda and Gonyou, Harold. Cabi. 2001 (classic)
