COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Define basic medical terminology relevant to human anatomy, physiology, diseases, medical procedures and treatments, including medical abbreviations, for all body systems.
- 2. Break down medical terms and identify word parts.
- 3. Build medical terms using appropriate word parts.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Describe the primary functions of each of the body systems using correct medical terminology.
- 2. Label or define the major anatomical parts of each body system.
- 3. Define medical terms related to diseases, procedures, treatments, and abbreviations for each body system.
- 4. Define word parts that pertain to each of the body systems.
- 5. Identify the various reports, abbreviations and symbols used in the medical record.
- 6. Identify common disorders and their associated symptoms for each body system.
- 7. Identify the medical specialties associated with each body system.

Topics and Scope:

- I. Introduction to Medical Terminology
 - A. Word roots, combining forms
 - B. Spelling, pronunciation
 - C. Prefixes
 - D. Suffixes
- II. Organization of the Body
 - A. Structure: cell, tissue, organs, and systems
 - B. Medical specialties related to body systems
- III. The Medical Record

- A. Medical reports
- B. Abbreviations
- C. Symbols
- IV. For Each of the Body Systems: Integumentary, Gastrointestinal, Respiratory, Cardiovascular, Blood and Lymph, Musculoskeletal, Urinary, Male Reproductive,

Female Reproductive, Endocrine, Eye, Ear and Nervous Systems

- A. Structure and function
- B. Medical terminology
- C. Diseases and their symptoms
- D. Diagnostic, radiographic, clinical, and surgical procedures
- E. Pharmacology and treatment
- F. Abbreviations

Assignment:

- 1. Complete workbook lessons and worksheet handouts, 10-20 pages per week
- 2. Make flash cards, vocabulary lists, voice recordings or CDs for practicing medical term spelling and pronunciation (not graded)
- 3. Write a 3-8 page medical research paper, accurately using medical information and terminology
- 4. Reading: 10-30 pages per week from textbooks
- 5. Quizzes (8 16)
- 6. Final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Research paper

15 - 25%

Problem Solving: Assessment tools, other than exams, that

demonstrate competence in computational or noncomputational problem solving skills.

Workbooks and worksheets

Problem solving 15 - 25%

Writing

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations 0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, final exam

Exams 50 - 70%

Other: Includes any assessment tools that do not logically fit into the above categories.

None	l	Other Category 0 - 0%
