		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 36.00

Total Student Learning Hours: 54.00

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: AG 281.20

Catalog Description:

Soil types and irrigation requirements in the vineyard. Covers vineyard water and nutrition needs, water and fertilizer application techniques, and irrigation management for various rootstocks.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:**Schedule of Classes Information:**

Description: Soil types and irrigation requirements in the vineyard. Covers vineyard water and nutrition needs, water and fertilizer application techniques, and irrigation management for various rootstocks. (Grade or P/NP)

Prerequisites/Corequisites:

Recommended: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

Transfer Credit:

Repeatability: Two Repeats if Grade was D, F, NC, or NP

Both Certificate and Major Applicable

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Recognize vine mineral nutrition deficiency/toxicity symptoms.
2. Assess and evaluate a vineyard's fertilization and irrigation practices.
3. Make appropriate fertilizer and irrigation scheduling recommendations.

Objectives:

Upon completion of this course, students will be able to:

1. Give examples of North Coast geography and soil types.
2. Read and interpret a soil analysis.
3. Recognize foliar symptoms of grapevine nutrient deficiency.
4. Determine appropriate fertilizers and methods of application for grapevines.
5. Assess a plant's response to fertilizer application.
6. Discuss water management strategies for vine health.
7. Evaluate rootstocks for health and adaptability.

Topics and Scope:

I. North Coast Geology and Soils

II. Soil Chemistry

A. Texture

B. Clay types and chemistry cations

C. Cation exchange and CEC (cation exchange capacity)

III. Nutrient Mobility and Fixation

IV. Reading and Understanding Soil Analyses

V. Tissue Sampling and Interpretation

VI. Visual Recognition of Foliar Symptoms

VII. Fertilizers

A. Determining vine needs

B. Methods of application

- C. Assessing response to fertilizers
- VIII. Soil Physical Traits
 - A. Texture
 - B. Structure
 - C. Water-holding capacity
- IX. Water Management Strategies
 - A. Soil, plant, and weather-based techniques
 - B. Separating types of "stress"
- X. Aerial Reconnaissance of Vineyards
- XI. Rootstock Adaptability and Selection
- XII. Phylloxera and Other Root Pests
- XIII. Rootstock Evaluation and Pathogens

Assignment:

1. Read and analyze 3-5 soil samples; write 1-page interpretive report on each
2. Reading: 10-15 pages per week
3. Quizzes (1-2) and final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Soil analysis

Problem solving
10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and final exam: Multiple choice, True/false, Matching items, Completion, Short answer

Exams
80 - 90%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation

Other Category
0 - 10%

Representative Textbooks and Materials:
Instructor prepared materials.
