### **Catalog Description:**

Instruction and individualized learning plans are provided for preparation for the mathematics sections of the GED (General Educational Development) and other HSE (High School Equivalency) tests. First level course covers math computation for whole numbers and decimals. Includes computer skills as necessary for online practice and test-taking. Course also provides math skills development in preparation for credit Math Pathway classes; CTE (Career Technical Education) classes; and Basic Academic Skills Certificate of Completion.

## **Certificate/Major Applicable:**

Certificate Applicable Course

# **COURSE CONTENT**

## **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Solve arithmetic computation and word problems involving whole numbers and decimals
- 2. Interpret basic visual representations of data involving whole numbers and decimals
- 3. Perform mathematical problem solving in a variety of formats

# **Objectives:**

Upon completion of this course, students will be able to:

- 1. Add, subtract, multiply, and divide whole numbers and decimals
- 2. Comprehend word problems and apply strategies for setting up mathematical expressions to solve them
- 3. Identify information presented in basic graphs

# **Topics and Scope:**

Content, topics, and scope may vary, depending on student skill level determined through initial assessment.

- 1. Arithmetic Operations and Concepts
  - a. Addition, subtraction, multiplication, and division of whole numbers
  - b. Place value, including decimals
  - c. Rounding and estimating
  - d. Addition, subtraction, multiplication, and division of decimals
- 2. Word Problem Strategies

- a. Interpretation and set-up
- b. Applications to money and workplace-related situations
- 3. Basic graphs (circle, pie, bar)
- 4. (Optional based on availability) Computer Use
  - a. Navigation among assigned software programs
  - b. GED and other HSE test websites

## **Assignment:**

- 1. Computation and word problem exercises in texts, worksheets, and/or educational software
- 2. Participation in class activities and group work applying problem-solving strategies
- 3. Exercises in computer use (optional)
- 4. Quizzes (2-4)
- 5. Excerpts from GED/HSE practice tests (1-4)
- 6. Final assessment

#### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Writing None 0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

Problem solving Computation and word problem exercises 50 - 60%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

**Skill Demonstrations** None 0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes, practice tests, and assessment: multiple choice, short answer

25 - 40%

Exams

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Other Category Class participation and group work 5 - 20%
