Major Applicable Course

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Analyze the political, economic, cultural, and social developments in world history from 1500 C.E. to the present
2. Evaluate the causes and effects of historical events.
3. Critically analyze primary and secondary sources as historical evidence.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Locate on maps the geographical centers of historical development since 1500 C.E.
2. Identify and analyze the connections and contributions made by world civilizations and their continuing influence on global history.
3. Analyze broad patterns of change on both inter-regional scales and within complex societies.
4. Demonstrate critical, independent thinking through analysis of historical events and concepts using a variety of primary and secondary sources.
5. Demonstrate an understanding of civilization through multiple analytical categories such as race, class, gender and ethnicity.
6. Explain ways in which the world's physical and natural environment has affected and been affected by developments in human history.
7. Identify major discoveries, inventions, and scientific achievements and explain their historical significance.
8. Compare ideals, practices, and historical developments of major belief systems and philosophical systems.
