COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Define developmental milestones for children prenatal to 36 months in the areas of physical, psychosocial and cognitive development.
2. Examine and evaluate appropriate strategies for working with children 0 to 36 months.
3. Use observations of children to apply developmental theory.

Objectives:

At the conclusion of this course, the student should be able to:

1. Define key terms relating to physical, social-emotional, and cognitive development of children prenatal to 36 months.
2. Describe typical developmental expectations of young infants (0-8 mo.), mobile infants (8-18 mo.) and toddlers (18-36 mo.).
3. Evaluate appropriate strategies for adult interactions with infants and toddlers.
4. Apply developmental theory to real life situations in a variety of contexts.
5. Use observational skills to evaluate the growth and development of children ages birth to 36 months in the natural setting.

Topics and Scope:

- I. Domains of Development
 - A. Physical and motor development
 - B. Cognitive and language development
 - C. Social-emotional development including attachment and separation
- II. Characteristics of Development
 - A. Prenatal development
 - B. Young infants, 0 - 8 months
 - C. Mobile infants, 8 - 18 months
 - D. Toddlers, 18 - 36 months

III. Caregiving Strategies for Infants and Toddlers

IV. Application of Developmental Theory

- A. Role of family
- B. Societal expectations
- C. Role of caregiver
- D. Prevention of child maltreatment
- E. Developmental differences and special needs

V. Introduction to Observation Methods

- A. Running records
- B. Anecdotal records

Assignment:

Assignments may include:

1. Written responses to reading and class discussions, (1-2 pages weekly)
2. Reading assignments of approximately 20-30 pages per week
3. Observation report of approximately 2-4 pages in group care setting
4. Writing assignment that integrates theory and practice (approximately 2-4 pages)
5. Conduct a naturalistic observation; write a 2-4 page report using anecdotal and/or running records
6. Quizzes (0 - 6)
7. Exams, midterm and/or final

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written observation report(s), written response(s), theory and practice assignment

Writing
50 - 60%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Naturalistic observation

Skill Demonstrations
10 - 20%

Exams: All forms of formal testing, other than skill performance exams.

Exams, including quizzes, midterm, final

Exams
20 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.
