COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Differentiate between medications and medication dosage forms.
- 2. Demonstrate the ability to compound medications accurately and safely.
- 3. Compare and contrast the unique medication delivery systems found in hospitals and inpatient

environments.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Recognize the differences between retail pharmacy and hospital pharmacy and the skills required for working in a hospital inpatient setting.
- 2. Acquire the ability to communicate effectively with professional and ancillary staff in the hospital setting.

Topics and Scope:

- I. Introduction to the Hospital Environment
 - A. Professional staffing and personnel policies
 - B. Formularies
 - C. Standard operation procedures
 - 1. Joint Commission on Accreditation of Healthcare Organizations
 - 2. Pharmacy & Therapeutics Committee
 - 3. retail pharmacy vs hospital pharmacy
 - D. Purchasing, Central supply
 - E. Reading medication orders and terminology used on hospital orders
- II. Hospital Medication Delivery Systems and Vocabulary
 - A. Physician's order
 - B. Medication administration record, fill lists, unit dose, automated drug delivery systems.
 - C. Floor stock
 - 1. medication carts

- 2. crash carts
- D. Urgent (Stat) orders vs. standing orders
- E. Inventory control
- F. Transfer medications
- G. Recapture of unused medications
- H. Billing
- III. Needles and Syringes*
 - A. Small and large volume parenterals
 - B. Vials, ampules
 - C. Intravenous (IV) administration sets
 - 1. filter needles
 - 2. flow rates
 - 3. aseptic technique of IV medication
 - 4. sterile preparation of IV medication
 - D. Gowning and gloving
 - E. High Efficiency Particulate Air filters
 - F. Biological safety cabinet: working in the Laminar and Vertical flow hoods
- IV. IV Solution/Medication Compatibility*
 - A. Choosing the correct tools to prepare IV solutions
 - B. Labeling IV preparations
 - 1. inpatient use
 - 2. outpatient use
 - C. Calculating
 - 1. flow rates
 - 2. powder volume
 - 3. expiration dates
- V. Preparing Total Parenteral Nutrition (TPN)*
 - A. Gravity method vs. auto-mix compounding
 - B. Preparing TPN admixture report
 - C. Creating a medication pool
- VI. Single Dose and Multi-Dose Vials*
 - A. Preparation and storage
 - B. Working with ampules
 - C. Reconstituting powders
- VII. Chemotherapy Agents*
 - A. Safety issues
 - B. Use of chemo spill kit
 - C. Safety equipment
 - D. Correct selection of equipment
 - E. Labeling and packaging of chemotherapy preparations
 - F. Disposal of biohazard materials

Laboratory Exercises:

- I. Preparing Unit Doses
- II. Restocking Medications and Crash Carts

Assignment:

Lecture-Related Assignments:

1. Reading assignments in the textbook, 10-20 pages per week

^{*}These topics are also included in the lab

- 2. Homework: create labels for practice medications to be used in the lab portion of the class
- 3. Quizzes (4 10), midterm, final exam
- 4. Class discussion

Lab-Related Assignments:

- 1. Laboratory skill demonstrations (3-6): Techniques and manipulation skills for hospital devices and medications; preparation of work area
- 2. Laboratory problem solving (3-6): Dosage calculations; correct preparation of medications

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing 0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Lab problem solving

Problem solving 45 - 50%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Laboratory skill demonstrations; labels

Skill Demonstrations 5 - 10%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, midterm, final exam

Exams 45 - 50%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class small group discussions

Other Category 0 - 5%
