Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: AG 297.3

Catalog Description:

This course will introduce and identify perennials that are well suited for sustainable landscape use in Sonoma County. It will stress identification of perennials, their particular environmental requirements, and their landscape usage and potential. Plants that are compatible with sustainable landscape practices will be highlighted, including low water-use and reduced needs for pest management and specialty fertilizer application.

Prerequisites/Corequisites:

Recommended Preparation:

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of this course students will be able to:

- 1. Identify a range (50 80) of perennial plants by leaf, flower, and growth habit.
- 2. Describe the growth habits and soil and water requirements of different perennial plants.
- 3. Assess and select perennial plants according to desired function, growth habits, climate, exposure, and maintenance requirements.
- 4. Assess and recommend sustainable cultural practices for perennial plants in the landscape.
- 5. Assess and recommend perennials for landscaping purposes to provide desired foliage, flower, and form characteristics.
- 6. Evaluate and recommend perennials suitable for water efficient landscapes.
- 7. Use plant keys or other resources, including internet to identify specimens.

Topics and Scope:

- I. External structures used in identification of plants
 - A. Leaves
 - B. Buds
 - C. Stem
 - D. Flowers
- II. Identification by sight memory of 50-70 perennials
- III. Growth habits and requirements
 - A. Origin and climatic range
 - B. Form of growth
 - C. Rate of growth
 - D. Ultimate growth height and spread
 - E. Leaf structure

- F. Flower color and season
- G. Exposure
 - 1. sun
 - 2. shade
 - 3. half sun/shade
- G. Soil and water requirements of the plants studied
- IV. Successful landscape use
 - A. Function
 - B. Aesthetic value
- V. Sustainable plant usage
 - A. Water efficient planting
 - B. Pest and disease resistance
 - C. California native and Mediterranean climate adapted plants

Assignment:

Report

- 1. 3-5 page written report and oral presentation on selected perennial or group of perennials.
- 2. Field work: collect and label field samples of 10-15 new plants per week.
- 3. Memorize botanical names for 10-15 new plants per week.
- 4. Sight identify specimens of 10-15 new plants per week.
- 5. Write and correctly spell botanical and common names for 10-15 new plants per week.
- 6. Final specimen identification exam.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-

computational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Field work, plant identification

Exams: All forms of formal testing, other than skill performance exams.

Specimen identification by botanical name exam: multiple choice, true/false, matching items, completion

Other: Includes any assessment tools that do not logically fit into the above categories.

Writing 10 - 20%

Problem solving 0 - 0%

Skill Demonstrations 10 - 20%

Exams 50 - 70%

Oral presentation, attendance and participation

Other Category 0 - 10%
