COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, the student will be able to:

1. Plan and manage a small commercial garden.
2. Test and analyze soil.
3. Determine appropriate type, amount and proper application of soil amendments.
4. Discuss the role of and methods for crop rotation.
5. Suggest appropriate cover crops for a given garden plot.
6. Plant a crop utilizing appropriate planning and planting methods.
7. Utilize methods and structures to extend the growing season.
8. Evaluate pest control needs and recommend appropriate pest management procedures.
9. Determine cost of production for various farm enterprises.
10. Compare and contrast the benefits of planting from seed or transplants.
11. Produce transplants for planting.

Topics and Scope:

- I. Orientation to the Food Pyramid Garden (FPG)
 - A. Background
 - B. History of site
 - C. Purpose
 - D. Long-term vision
 - E. Overview of Food Pyramid Garden components
 1. grains
 2. vegetables
 3. fruit
 4. protein
 5. dairy

- 6. sugars and oils
- II. Fall Farm Management/Planning
 - A. Financial planning
 - 1. budget
 - 2. income/expense
 - 3. record keeping
 - B. Community relations/outreach
- III. Soil Fertility Management
 - A. Soil testing and analysis
 - 1. soil pH
 - 2. soil nutrients
 - 3. percentage organic matter
 - B. Organic soil amendments
 - C. Cover crop planting
 - D. Crop rotation
- IV. Fall Cultural Practices
 - A. Tillage
 - B. Integrated Pest Management (IPM)
 - 1. pest pressures
 - 2. pest management treatments
 - C. Irrigation
 - D. Fertilization
 - 1. calculating material to meet crop nutrient needs
 - 2. application methods
 - E. Cover crops
- V. Fall Planting
 - A. Appropriate crops
 - B. Seeds
 - 1. ordering the appropriate seeds
 - 2. proper storage
 - C. Fall transplants
 - D. Care of fall seedlings/transplants
 - E. Bare root fruit trees
 - F. Growing Season Extension
- VI. Planting Plans
 - A. Field layout
 - 1. spacing
 - 2. companion planting
 - 3. Yield calculations
 - B. Planting intervals for continuous harvest
- VII. Harvesting the Crop
 - A. When to harvest
 - B. How to harvest
 - C. Sequence of harvest
 - D. Harvest frequency
 - E. Post-harvest crop storage

Assignment:

Assignments may include:

- 1. Reading, 15 - 20 pages per week.
- 2. Plan a section of the Food Pyramid Garden (FPG), proposing appropriate

- design features and a planting plan.
3. Create a production and marketing plan for a section of the FPG.
 4. Develop a self-guided tour brochure for the FPG.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Tour brochure for FPG.

Writing
20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Section plan for FPG; production & marketing plan.

Problem solving
40 - 50%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category
20 - 30%
