Both Certificate and Major Applicable

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify common pathologies on images
2. Present literary review to medical professionals

Objectives:

Upon completion of this course students will be able to:

1. Create a literary review on an appropriate topic within the scope of medical imaging practices using the American Medical Association (AMA) style
2. Recognize common pathological conditions and processes on radiographic images of the gastrointestinal, genitourinary, musculoskeletal, nervous, respiratory, and circulatory systems
3. Identify trauma to bones and soft tissue on radiographic images
4. Recognize common pathological conditions on radiographs of pediatric cases

Topics and Scope:

- I. Radiographic Pathology
 - A. Variations of normal
 1. adult
 2. pediatric
 - B. Diseases
 - C. Trauma
 - D. Manifestations on images
- II. Radiographic Anatomy and Related Pathology
 - A. Central nervous system
 - B. Musculoskeletal
 - C. Endocrinology
 - D. Pulmonary
 - E. Cardiology
 - F. Gastrointestinal system
 - G. Urinary system

- H. Hepatobiliary system
 - I. Hemopoietic system
 - J. Reproductive system
 - K. Circulatory system
- III. American Medical Association Style
- A. Research methodology
 - B. Reference list
 - C. Presentation style
- IV. Modifications of Standard and Special Techniques Necessary to Obtain Optimum Diagnostic Radiographic Studies

Assignment:

1. Research Literary review paper on a pathological condition or scientific subject pertaining to medical imaging (5-10 pages)
2. Weekly chapter readings (20-30 pages/week)
3. Quizzes (4 - 6)
4. Midterm exam
5. Final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Literary review paper	Writing 30 - 70%
-----------------------	---------------------

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None	Problem solving 0 - 0%
------	---------------------------

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None	Skill Demonstrations 0 - 0%
------	--------------------------------

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, midterm exam, final exam	Exams 25 - 60%
-----------------------------------	-------------------

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation	Other Category 5 - 10%
------------------------------	---------------------------
