COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify criteria that will lead to successful completion of the paramedic academy.
2. Demonstrate Basic Emergency Medical Technician (EMT) knowledge, skills and abilities that lead to paramedic academy success.

Objectives:

At the conclusion of this course, the student should be able to:

1. Define the roles and responsibilities of the paramedic in the pre-hospital care setting.
2. Define the California basic paramedic scope of practice.
3. Outline California licensing requirements for paramedics.
4. Apply knowledge of human anatomy and physiology to the emergency patients.
5. Apply knowledge of EMT to emergency patients.
6. Identify basic cardiac dysrhythmias.
7. Demonstrate EMT skills.
8. Apply basic math skills required for pharmacology.
9. Demonstrate effective communication and leadership skills utilized by paramedics.

Topics and Scope:

I. Human Anatomy and Physiology

- A. Understanding of human anatomy consistent with paramedic practice
- B. Understanding of human physiology consistent with paramedic practice

II. Basic EMT Knowledge and Skills

- A. Preparatory
- B. Patient assessment

- C. Trauma emergencies
- D. Medical emergencies
- E. Pediatric emergencies
- F. Mass casualty incident management
- III. The Pre-Hospital Roles and Responsibilities of Paramedic
 - A. Scene management
 - B. Communications and documentation
 - C. Leadership
 - D. Stress management
- IV. California Title 22 - Paramedic Practice
 - A. Scope of practice
 - B. License requirements
- V. Basic Cardiology - Common Dysrhythmias
- VI. Learning Domains of Paramedic Education
 - A. Cognitive
 - B. Psychomotor
 - C. Affective
- VII. Pharmacology Math
 - A. Drug Dosage
 - B. IV drip calculation

All topics are covered in the lecture and lab portions of the course.

Assignment:

Lecture-Related Assignments:

1. Identify 5 cardiac dysrhythmias (ungraded)
2. Communication and leadership essay

Lab-Related Assignments:

1. Demonstrate EMT skills in airway management and patient assessment
2. Multiple-choice exam demonstrating EMT and paramedic pre-requisite knowledge
3. Discuss EMT assessment and treatment plan for 3 patient scenarios

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Essay

Writing 0 - 5%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Scenario interaction

Problem solving 10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Psychomotor skills: airway and patient assessments

Skill Demonstrations
25 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice exam, essay

Exams
30 - 55%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%

Representative Textbooks and Materials:
Instructor prepared materials.
