COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Describe techniques used to provide routine preventative medical care to canine and feline patients.
- 2. Explain safe patient handling and protocols to provide preventative medical care to feline and canine patients.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Describe how to safely restrain cats and dogs for physical examination using appropriate restraint techniques.
- 2. Explain how to take and record vital signs during a mock examination.
- 3. Describe the importance of preventative medicine procedures and use a rubric to determine the medical needs of a patient.
- 4. Describe the technique for proper administration of medication (at least orally).
- 5. Describe the technique for proper administration of SQ (subcutaneous) and/or IM (intramuscular) injections.
- 6. Describe the technique for performing a physical examination on a canine or feline patient.

Topics and Scope:

- I. Hospital Safety Procedures
- II. Preventative Medicine Protocols
 - A. Heath examination, vaccinations, parasite control, sterilization, permanent identification
 - B. Importance and purpose of each aspect of typical preventative medicine
 - C. Application of protocols to determine care plan for individual patients

III. Animal Restraint

- A. Safe, manual restraint of dogs and cats for physical examination
- B. Application of canine and feline muzzles
- C. Use of towels, rabies poles, and common restraint devices
- IV. Physical Exam Skills including Taking and Recording Vital Signs
 - A. Temperature
 - B. Pulse

- C. Respiration
- D. Capillary Refill Time (CRT)
- E. Auscultation of heart and lungs with a stethoscope
- F. Age estimation based on dentition
- V. Administration of Oral Medications
- VI. Administration of SQ (subcutaneous) and/or IM (intramuscular) Injections
 - A. Reviewing locations for administration
 - B. Practicing proper aseptic technique
- VII. Nail Trims
- VIII. Prescriptions
 - A. Common abbreviations
 - B. Prescription labeling
 - C. Dispensing medication
- IX. Client Communication

Assignment:

- 1. Reading, approximately 25 50 pages total
- 2. Quizzes
- 3. Presentation or role-play

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Writing 0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving 0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Presentation or role-play

Skill Demonstrations 10 - 30%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes

Exams 50 - 70%

Other: Includes any assessment tools that do not logically fit into the above categories.
