## Catalog Description:

The second half of a beginning algebra course, including systems of equations, rational expressions, radicals and rational exponents, quadratic equations, and the graphs of parabolas. The combination of MATH 150A and MATH 150B is equivalent to MATH 151. Not open to those who have taken MATH 151 with a grade of "C" or better.

## Prerequisites/Corequisites:

Course Completion of MATH 150A

## Recommended Preparation:

## Limits on Enrollment:

## COURSE CONTENT

## Outcomes and Objectives:

Upon successful completion of the course, students will be able to:

1. Solve systems of equations and inequalities in two variables and related applications.
2. Perform operations of addition, subtraction, multiplication, and division on radical expressions and simplify.
3. Solve radical equations and related applications.
4. Manipulate expressions involving rational exponents.
5. Perform operations of addition, subtraction, multiplication, and division on rational expressions, and simplify rational expressions and complex fractions.
6. Solve rational equations and related applications.
7. Solve quadratic equations by completing the square and the quadratic formula.

## Topics and Scope:

I. Linear equations and inequations in two variables
A. Systems of equations in two variables

1. Solving by graphing
2. Solving by elimination
3. Solving by substitution
4. Applications
B. Systems of inequalities
II. Rational expressions
A. Simplification
B. Operations
C. Complex fractions
D. Rational equations
E. Applications
III. Radicals
A. Square roots
B. Simplification
C. Sums and products of radicals
D. Rationalizing denominators of square roots
E. Higher-index radicals
F. Pythagorean Theorem
G. Radical equations
H. Rational exponents
I. Applications
IV. Quadratic equations
A. Completing the square
B. Quadratic formula
C. Applications
V. Introduction to Function Notation
VI. Graphing parabolic functions
A. Intercepts
B. Vertex

## Assignment:

1. Weekly reading outside of class (0-50 pages)
2. Problem set assignments (10-30)
3. Midterms (2-5) and a final exam; quizzes (0-15)
4. Projects (for example, calculator explorations and activities) (0-2)

## Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments are more appropriate for this course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

Problem set assignments
Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Exams: All forms of formal testing, other than skill performance exams.

Exams: multiple choice, free response exams; quizzes

Other: Includes any assessment tools that do not logically fit into the above categories.

Projects

## Representative Textbooks and Materials:

Beginning Algebra. 7th ed. Martin-Gay, Elayn. Prentice-Hall. 2016
