COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course the student will be able to:

1. Recognize and address common health-related community challenges and strengths.
2. Identify community resources for effective health-related networking and referrals.
3. Utilize effective methods of sharing health information and promoting healthy outcomes.
4. Practice and model effective techniques for time management and healthy stress reduction.
5. Analyze outreach experiences, particularly relating to collaboration and team approaches.

Topics and Scope:

- I. Health Issues and Strengths in the Community
 - A. Local concerns and resources
 - B. Observation, documentation, analysis, action
 - C. Local resources for health data
- II. Role of CHW in Health Outcome Improvement
 - A. Standards and scope of practice
 - B. Information, education and communication techniques
 - C. Respect, collaboration and cooperation
- III. Local Resources for Healthy Communities

- A. Sonoma County agencies and departments
 - B. Non-profit, community-based resources
- IV. Collaboration in Community Health Work
- A. Team building among CHW students
 - B. Effective Communication
 - C. Conflict management and resolution
 - D. Working with other CHWs and health professionals
 - E. Health advocacy, promotion and community organization
- V. Effective and Healthy CHWs
- A. Time management
 - B. Professionalism
 - C. Self assessment and stress reduction

Assignment:

1. Practice effective outreach techniques via role-play scenarios, case studies and other supervised activities
2. Complete and document 120 hours of outreach experience, via designated weekly externship reports
3. Maintain a journal to reflect on communications with supervisors, colleagues, client interviews and intake experiences
4. Outline and follow an individualized plan of action for effective work, including time management and stress reduction
5. Meet with instructor and outreach supervisor to review accomplishments and identify areas for improvement

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Action plan, written reflections, and externship reports	Writing 5 - 10%
Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.	
Case studies, in class role plays	Problem solving 25 - 40%
Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Health education and outreach skills	Skill Demonstrations 15 - 30%
Exams: All forms of formal testing, other than skill performance exams.	
None	Exams 0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Instructor/supervisor evaluations; completed hours and objectives

Other Category
35 - 55%
