COURSE CONTENT

Student Learning Outcomes:

Upon completion of the course, students will be able to:

1. Demonstrate proper techniques to safely and successfully engage in resistance training activities
2. Create and implement a progressive resistance training program incorporating a variety of equipment based on individual fitness level and goals

Objectives:

Students will be able to:

1. Identify basic musculo-skeletal anatomy and muscle actions
2. Demonstrate proper form and technique in use of all resistance training equipment
3. Explain the use of specific muscle groups in relation to various resistance exercises
4. Construct an individual resistance training plan
5. Create short and long term fitness goals
6. Assess personal fitness level
7. Explain proper safety considerations in resistance training
8. Explain modifications, progressions, and regressions for resistance training exercises

Topics and Scope:

- I. Basic Musculo-Skeletal Anatomy
- II. Orientation to Equipment
 - A. Machines
 - B. Free weights
 - C. Stability balls
 - D. Medicine balls
 - E. Exercise bands and tubes
 - F. Bars
 - G. Cables
- III. Proper Body Mechanics, Technique, Form and Safety Considerations for Resistance Exercises

IV. Types of Muscular Actions

- A. Concentric
- B. Eccentric
- C. Isometric
- D. Isotonic

V. Fitness Assessment

- A. Baseline
- B. Post-test

VI. Program Design Based on Fitness Level and Goals

- A. Body fat reduction
- B. Increasing lean body mass (muscle)
- C. Sport specific performance
- D. Muscular strength and endurance

VII. Appropriate Modifications and Progressions Based on Fitness Level

VIII. Core Training Exercises

Assignment:

Students are expected to spend an additional one and one-half hours per week outside of class completing one or more of the following assignments:

1. Short term and long term goal setting (2 - 4 per semester, 1 - 2 pages each)
2. Development of a resistance training program
3. Fitness assessments
4. Exam(s) or quiz(zes) (1 - 3)
5. Performance exam(s) (1 - 3)
6. Fitness journal (1 entry per week)
7. One to two hours of exercise outside of class per week

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Short term and long term goals, fitness journal/record

Writing
5 - 25%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Resistance Training Program Design

Problem solving
5 - 25%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, fitness assessments

Skill Demonstrations
5 - 25%

Exams: All forms of formal testing, other than skill performance exams.

Exam(s), Quiz(zes)

Exams
15 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance, outside exercise

Other Category
40 - 60%
