Both Certificate and Major Applicable

### **COURSE CONTENT**

#### **Student Learning Outcomes:**

Upon completion of the course, students will be able to:

1. Describe warning signs, symptoms, and causes of substance use disorders.
2. Analyze the ways in which education can and does assist in the prevention of communicable and infectious diseases among drug users and the application of harm reduction strategies to other public health issues.
3. Describe the basic principles of personal and public health, and substance abuse prevention, treatment, and recovery.
4. Identify and explain the common characteristics of children of substance abusers.

#### **Objectives:**

Students will be able to:

1. Identify and interpret the role of the addiction professional to address prevention as well as treatment.
2. Predict factors that increase the likelihood for an individual, community, or group to be at-risk for, or resilient to, psychoactive substance use disorders.
3. Identify issues of cultural identity, ethnic background, age, and gender, in prevention, treatment, and recovery.
4. Analyze warning signs, symptoms, and the course of substance abuse disorders.
5. Describe how substance abuse disorders affect families and concerned others.
6. Apply the concept and practice of harm reduction, using local examples if available.
7. Diagram the continuum of care concept and resources available in the community.
8. Differentiate the basic principles and philosophy of prevention, treatment, and recovery.
9. Describe the health and behavior problems related to substance abuse.
10. Describe life management skills.

#### **Topics and Scope:**
