COURSE CONTENT

Student Learning Outcomes:

Upon completion of the course, students will be able to:

1. Examine client needs and determine barriers for accessing support and help, including societal influences that impact individuals throughout the life span.
2. Distinguish and assess the roles, responsibilities, and requirements of human service professionals in the helping professions over time and currently.
3. Develop an understanding of local services, client needs, and a referral network

Objectives:

Students will be able to:

1. Outline the historical development of human services and distinguish varying theoretical approaches to human services work.
2. Develop knowledge, values and skills that enable workers to support others in problem solving and in making better use of resources within their communities.
3. Define and research current social issues as they impact people coping with today's societal problems.
4. Differentiate and assess the individual and societal influences across the lifespan that impact the lives of people in need.
5. Compare and contrast the different ways of viewing individual societal problems.
6. Identify causes of societal problems and explain how people become clients.
7. Assess and evaluate the psychological, physiological and social forces contributing to societal problems.
8. Categorize and examine various human service roles and types of career opportunities.
9. Evaluate the ethical and professional issues encountered in the field of human services.
10. Research and describe the goals and/or functions of human service agencies providing

services for people in need from a local and global perspective.

Topics and Scope:

Assignment:

1. Read assigned textbook and supplemental reading material of approximately 25-35 pages per week
2. Oral and visual presentation about human service populations and available services
3. Develop a human service resource index
4. Write 3-5 case assessments ranging from 2-5 pages from a human service provider's perspective applying applicable theory and methods
5. Midterm exam(s) (1 - 2)
6. Final exam
7. Class group work discussing weekly content and case analysis
8. Class exercises practicing course-related skills

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Case assessment, visual component of presentation, resource index

Writing
20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Application of text concepts to case assessment, presentation

Problem solving
10 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Case assessment, class exercises, presentation, resource index, exams

Skill Demonstrations
20 - 30%

Exams: All forms of formal testing, other than skill performance exams.

Exam(s), case assessments, presentation

Exams
20 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class group work and exercises

Other Category
10 - 20%
