COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Analyze extended arguments to identify and explain their claims and premises.
- 2. Evaluate extended arguments to determine whether their claims are adequately supported.
- 3. Compose cogent written argumentative essays.

Objectives:

Upon completion of the course, students will be able to:

- 1. Identify and describe the main conclusion or thesis of an argument and demonstrate an understanding of its significance.
- 2. Identify and paraphrase the main supporting premises for a conclusion and the arguments in support of those premises.
- 3. Identify vagueness, ambiguity, emotive language and other rhetorical elements of an argument.
- 4. Make explicit any unstated premises and/or conclusions in an argument.
- 5. Employ the correct techniques for evaluating the deductive and/or inductive structures of a component argument within the larger argument.
- 6. Determine and discuss the relevance of premises to conclusions.
- 7. Detect and describe logical fallacies that may occur in an argument.
- 8. Evaluate the acceptability of any unsupported statements of fact or opinion in an argument.
- 9. Perform a summary evaluation of an overall argument.
- 10. Select an appropriate topic for an argumentative essay and formulate a clear and defensible conclusion.
- 11. Conduct library research to support an argument and provide the appropriate documentation.
- 12. Develop strong arguments that are based upon sound inferences from clear and acceptable premises.

- 13. Anticipate and critique the strongest counter-arguments.
- 14. Express ideas clearly, precisely and unambiguously.
- 15. Organize essays, paragraphs and sentences logically and coherently.

Topics and Scope:

Topics and sequences vary but a typical course involves the following:

- I. The concept of "argument" and its various components (e.g. issue, conclusion, premise, assumption)
- II. Clarity in language use
 - A. how to recognize unclear language
 - B. how to improve the clarity of one's own writing
- III. Rhetorical features of argument evaluation
 - A. ambiguity, connotation, denotation, euphemism, slanting, etc.
 - B. identifying rhetorical features in critical essays
- IV. Types of argument
 - A. deductive, inductive, syllogism, generalization, analogy, causal argument, etc.
 - B. identifying types in critical essays
- V. Methods for evaluating arguments (e.g. validity, soundness, cogency, relevance, logical fallacy)
- VI. Determining the acceptability of claims of fact, value, opinion, etc.
- VII. Selecting argumentative essay topics and conclusions
- VIII. Developing and presenting relevant support for a conclusion
- IX. Identifying and responding to the strongest objections to a position
- X. Organizing an argumentative essay clearly, logically, and coherently by the appropriate use of essay components
 - A. introduction
 - B. transitions
 - C. conclusions
 - D. summaries
 - E. logical relationships between sentences in a paragraph and between paragraphs in an essay
- XI. Library research and documentation, as pertaining to argument essays
- XII. Revision techniques to improve clarity, coherence, accuracy, cogency and logical progression

Assignment:

- 1. Regular reading assignments from course text and supplementary materials (25-50 pages/week). Diversity of perspective and culture will be reflected in the selection of these arguments.
- 2. Description and written application of methods for evaluating different types of arguments.
- 3. Discussion and written application of methods for selecting argumentative essay topics and conclusions and developing and presenting relevant support for a conclusion.
- 4. Writing assignments of at least 6000 words total, divided into at least five essays.
- 5. Library research and documentation.
- 6. Practice in revising essays to improve its clarity, coherence, accuracy, cogency and logical progression.
- 7. 1-2 exams.
- 8. Participation in class discussions.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Argument essays; written applications

Writing 70 - 90%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

Written applications of methods

Problem solving 5 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations 0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

1-2 exams: multiple choice, essay

Exams 5 - 25%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category 0 - 0%
