Catalog Description:

Learn where to find 3D models and turn them into physical objects using a variety of 3D printers. Includes learning about the features and abilities of 3D printers and the software and hardware used for 3D printing.

Prerequisites/Corequisites:

Recommended Preparation: Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Find and download existing 3D models.
- 2. Print objects on a selection of 3D printers.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Locate existing 3D models to meet project requirements.
- 2. Identify 3D printer parts and components.
- 3. Work with slicing software.
- 4. Operate 3D printers.

Topics and Scope:

- I. Understanding 3D Printing
 - A. Hardware
 - 1. Filament
 - 2. Types of 3D printers
 - 3. 3D printer components
 - B. Software
 - 1. File formats
 - 2. Slicing software
- II. Locating Pre-Built 3D Models
- III. Configuring and Using Slicing Software
- IV. Printing 3D Objects
 - A. Proper filament selection
 - B. Safety
 - C. Operating procedures

All topics are covered in the lecture and lab portions of the course.

Assignment:

Lecture-Related Assignments: 1. Weekly assignments (3 - 5)

Weekly assignments (5 - .
Terminology glossary

3. One final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Weekly assignments, glossary assignment

Exams: All forms of formal testing, other than skill performance exams.

Final exam

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Representative Textbooks and Materials:

Getting Started with 3D Printing: A Hands-on Guide to the Hardware, Software, and Services That Make the 3D Printing Ecosystem. 2nd ed. Kloski, Liza and Kloski, Nick. Maker Media. 2018
