Catalog Description:

In this course, students examine a broad overview of Internet and software applications used in the day-to-day life of real estate and related professions. Computer technology has changed the way this country does business, particularly in the field of real estate. The course identifies hundreds of useful website addresses to help in computer and real estate-related tasks, as well as instruction on how best to access the information that the real estate agent/broker will need in the business. This course applies toward the educational requirements for either a salesperson or broker's license. It also meets the California Department of Real Estate (DRE) education requirements for the Salesperson or Brokers license.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

Limits on Enrollment:**Schedule of Classes Information:**
