COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Explain how culture functions by describing variations in cultural traditions (including social structures, systems of value, notions of identity, power structures, and spiritual beliefs) using appropriate anthropological terminology.
2. Compare and contrast historical and contemporary approaches to anthropological study, including the professional ethical obligations of anthropologists using contemporary methods to study human groups today.
3. Analyze the economic, political, and sociocultural forces of globalization and evaluate how they are reshaping various cultures today.

Objectives:

At the conclusion of this course, the student should be able to:

1. Identify and analyze patterns of diversity (uniqueness) and global culture (interconnected or

interrelated patterns of culture).

2. Identify and apply the concepts of cultural relativism, ethnocentrism, and globalization.
3. Evaluate various human responses to similar social and environmental challenges.
4. Apply introductory terms and concepts used in contemporary ethnographic description.
5. Locate on a world map a diversity of cultures presented in readings and class sessions.
6. Synthesize and critique various field methods and theories regarding the study of culture today and in the past.
7. Classify and analyze patterns of cultural change due to European colonialism in the past and influence of globalization in the present.

Topics and Scope:

Students will explore these topics in local, regional, and global (or interconnected) contexts:

- I. The Concept of Culture in Local and Global Use Today
- II. History of Anthropological Theory
- III. Variations in Collecting and Analyzing Cultural Data
 - A. Ethnography
 - B. Ethnology
 - C. Applied anthropology
 - D. Ethical issues faced by contemporary anthropologists
- IV. Cultural Relativism and Objectivity
- V. Language and Communication in Individual and Global Cultural Contexts
- VI. Human Relationships with Nature
 - A. Subsistence
 - B. Patterns of environmental balance
- VII. Economic Exchange in Various Cultural and Global Settings
 - A. Reciprocity
 - B. Market exchange
- VIII. Kinship, Marriage, and the Family
 - A. Kinship and descent systems
 - B. Kinship terminologies
- IX. Identity, Gender and Sex
 - A. Gender and sexuality as cultural constructions
 - B. Gender roles and stereotypes
 - C. Alternative genders
 - D. Male and female rights of passage
- X. Political Organization
 - A. Bands, tribes, chiefdoms, states, and nation-states
 - B. Forms of social control including law
- XI. Social Stratification
 - A. Race
 - B. Ethnicity
 - C. Class
 - D. Caste
- XII. Religion/Belief Systems
 - A. Mythologies and oral tradition
 - B. Symbols and rituals
 - C. Concepts of illness and healing
 - D. Concepts of superstition and magic
- XIII. Culture Change and the Future of Globalization in Anthropological Perspective
 - A. Indigenous groups and national governments
 - B. Act of colonialism

- C. Multinational corporations
- D. The internet

Assignment:

Representative Assignments:

1. For homework, students will read and study assignments in textbooks or supplementary readings for each class meeting approximately 10 to 30 pages per week.
2. Students will write one or more papers which may include critical analyses, response papers, field studies, summaries, or book reviews (for a total of 1250 to 1500 words)
3. During the course, students will complete two to four examinations, including a final.
4. Optional graded assignments for students may include quizzes, projects, presentations, attendance, or in-class participation.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Response papers, analyses, field studies, and/or book reviews

Writing
20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Exams, final, quizzes

Exams
60 - 70%

Other: Includes any assessment tools that do not logically fit into the above categories.

Projects, presentations, attendance, or in-class participation

Other Category
0 - 20%
