COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify and explain the essential concepts, theories, and research methods used in sociology to analyze relationship and kinship systems.
2. Critically assess the intersectional frameworks by which inequality and change shape, challenge, and transform relationship and kinship systems.
3. Apply their personal histories and lived experiences to course content.

Objectives:

At the conclusion of this course, the student should be able to:

1. Compare and contrast the theoretical and research perspectives used in the analysis of kinship systems.
2. Identify and describe the social issues impacting kinship systems today as specific to

singlehood, cohabitation, dating, marriage diversities, reproduction, adoption, parenting, step-parenting, remarriage, separation, and divorce.

3. Discuss the historical development of family as a complex social institution as influenced by colonial, socio-economic, legal, cultural, and political forces.

4. Critically assess socio-economic issues and laws impacting child rearing practices.

5. Analyze intersections of racial, ethnic, social class, and gender roles on kinship systems over the lifespan.

6. Discuss and examine patterns of abuse and violence in kinship systems.

7. Explain how social factors such as ethnicity, race, social class, gender, and sexual orientation shape patterns in kinship systems as drawn from regional, national, and international frameworks.

8. Assess the effects of an aging society and technological advancements as they impact modern kinship systems.

Topics and Scope:
