Certificate Applicable Course

COURSE CONTENT

Outcomes and Objectives:

The student will:

- 1. Identify all bones, major ligaments and tendons of the front and hind limbs and appraise their function.
- 2. Assess a sample foot and evaluate measures to gain proper balance.
- 3. Analyze various horses motion and appraise applicable training or shoeing techniques for maximum horse benefit.
- 4. Compare five unsoundnesses of the hoof and appraise their causes.
- 5. Diagram the internal and external parts of the hoof and analyze their function.
- 6. Examine hoof trimming tools and assess their function.
- 7. Appraise horse hooves for balance and design a plan to demonstrate proper balance by correct training.

Topics and Scope:

- 1. Basic anatomy of the skeleton of the horse
 - a. Ligaments of the forelimb and hindlimb
 - b. Tendons of the forelimb and hindlimb
- 2. Anatomy of the hoof
 - a. Proper balance
 - b. Diseases
 - c. Terms and function of hoof parts
- 3. Horse motion
 - a. Shoeing techniques
 - b. Corrective and pathological shoeingc. Preventative shoeing
- 4. Unsoundness of hoof
 - a. Conformation problems
 - b. Thin walls

- c. Dropped soles
- 5. Hoof trimming tools
 - a. Function
 - b. Costs
 - c. Identification
- 6. Balance of the hoof
 - a. Identify abnormalities
 - b. Design a plan for proper balance
 - c. Theory of restoring feet
- 7. Barefoot trimming
 - a. Advantage and disadvantages
 - b. Costs
 - c. Skills needed
- 8. Effects of age, health, and conformation on feet

Assignment:

Assignments may include specific reading assignments from instructor prepared materials. Students may be asked to demonstrate proper horseshoeing techniques in a classroom setting. Students will be asked to solve the problem of hoof balance. Quizzes and exams will be included as objective evaluations.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing 0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Field work, Quizzes, Exams

Problem solving 20 - 30%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams

Skill Demonstrations 40 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams 30 - 50%

Other: Includes any assessment tools that do not logically fit into the above categories.

None		Other Category 0 - 0%
