COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Identify a variety of cut flowers, foliages, green, and blooming plants used by retail florists.
- 2. Demonstrate proper care and handling methods for flowers, foliages, green and blooming plants.
- 3. Explain the safe use of tools in floral arrangements.
- 4. Understand the seasonal availability and pricing of flower supplies used by florists.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Classify and identify species and types of flowers, foliages, and green and blooming plants commonly used by retail florists based on the binomial method of plant nomenclature.
- 2. Determine proper care and handling methods for flowers from the grower to the retail shop.
- 3. Evaluate species and types of flowers, foliages and green and blooming plants for their expression of principles and rules of design and color.
- 4. Identify sources of quality flower, foliage, and plant products.
- 5. Describe the proper and safe use of tools and equipment for processing cut flowers and crafting designs.
- 6. Identify floral products that are appropriate to use in dried floral arrangement.
- 7. Determine the specific products used to enhance the vase life of cut flowers and foliages.

Topics and Scope:

- I. Equipment Used in Processing of Cut Flowers
 - A. Knives and snips
 - B. Underwater cutting systems and choppers
 - C. Refrigeration requirements
 - D. Buckets and containers
- II. Identification and Binomial Nomenclature
 - A. Standard flowers

- B. Tropical flowers
- C. Green plants
- D. Blooming plants
- E. Succulents
- F. Foliages and greens

III. Product Procurement

- A. Purchasing quality and pre-care
- B. Sourcing and variety knowledge
- C. Specific quantity knowledge
- IV. Cleaning and Processing of Flowers and Foliages
 - A. Hydrating techniques
 - B. Preservatives
 - C. Conditioning
 - D. Maintenance and cleaning
 - E. Water quality and effect on flowers
 - F. Safety
- V. Storage and Care
 - A. Refrigeration
 - B. Ethylene concerns
 - C. Cleaning and maintenance of equipment
 - D. Floral foam
- VI. Seasonal Materials
 - A. Spring bulb flowers
 - B. Christmas holiday greens
- VII. Cleaning and Processing of Flowers and Foliages in Preparation for the Drying Process
 - A. Types of flowers and foliage
 - B. Conditioning
 - C. Maintenance
 - D. Different methods of drying and preserving
- VIII. Tabletop Gardens
 - A. Selection of blooming and green plants and succulents
 - B. Containers
 - C. Care and Maintenance
 - D. Materials and techniques used for decorative purposes

Assignment:

- 1. Reading, approximately 10 20 pages per week.
- 2. Floral identification, processing and handling worksheets
- 3. Floral identification, processing and handling notebook
- 4. Written report on selection, process of dried material (1-2 pages)
- 5. Table top garden project
- 6. Quiz(zes) (1-2) and final exam
- 7. Research report evaluating different products and their effectiveness for long vase life (1-2 pages)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Notebook, reports on dried material and vase life

Writing 15 - 25%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Worksheets: plant/floral identification

Problem solving 20 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Table top garden

Skill Demonstrations 10 - 25%

Exams: All forms of formal testing, other than skill performance exams.

Quiz(zes) and final exam

Exams 20 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category 0 - 0%

Representative Textbooks and Materials:

Handbook of Flowers, Foliage, and Creative Design. Cengage Learning. 2000 (classic) Instructor prepared materials.
