Catalog Description:

Information and skills training for basic hand tools, battery tool kits, and common electrical parts and components used in electrical-related trades. Course will include developing quality customer service skills. Students will receive the Occupational, Safety and Health Administration training instruction, OSHA 10. Students who pass the exam at the end of the course are eligible to receive the OSHA 10-Hour Construction Industry Outreach Department of Labor (DOL) course completion card.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 100 OR EMLS 100 (formerly ESL 100) or equivalent

Limits on Enrollment:**Schedule of Classes Information:**

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify, maintain, properly store, and safely use basic hand tools and battery operated tools used commonly in the electrical trades.
2. Identify components and parts used in the electrical trades.
3. Describe best practices and industry standards required in the trades when working in customer locations.
4. Identify, minimize, and control workplace hazards by understanding and applying OSHA standards.

Objectives:

At the conclusion of this course, the student should be able to:

1. Gather proper parts and sizes from a parts list.
2. Identify the tools needed for a given project.
3. Identify tools commonly found in a electrician's tool belt and describe their typical use.
4. Demonstrate the safe use of and care for tools in a battery kit.
5. Identify how to protect a customer's home and property.
6. Investigate, research and understand relevant safety issues to become eligible to obtain an OSHA 10-hour Department of Labor (DOL) completion card.

Topics and Scope:

- I. Common Electrical System Materials, Parts, and Components
 - A. Wire types and gauges

- B. Conduit types, sizes, and connectors
- C. Distribution, control, and junction boxes
- D. Miscellaneous parts needed to form safe connections
- E. Grounding and bonding components
- II. Proper Electrical Connections
 - A. The importance of proper torqueing of parts
 - B. Proper installation and removal of threaded parts
 - C. Crimping connections
- III. Non-Powered Hand Tools
 - A. Selection of appropriate tool type for intended use
 - B. Safe use of hand tools
- IV. Battery-Powered Tools
 - A. Appropriate use of drills, impact drivers, reciprocating saws, and portable lights
 - B. Safe operations including personal and property protection
 - C. Proper tool use techniques
 - D. Proper storage and charging of batteries
- V. Customer Property Protection and Service Skills
- VI. Workplace Safety
 - A. Introduction to OSHA
 - 1. Standards
 - 2. Requirements
 - 3. Recordkeeping and reporting
 - 4. Worker's rights and responsibilities
 - 5. Employer's rights and responsibilities
 - 6. Workplace inspections
 - 7. Sources of assistance for information, standards, consultation and emergencies
 - 8. OSHA website information and resources
 - B. Bloodborne Pathogens
 - 1. Common bloodborne pathogen exposures
 - 2. Workers who are at risk
 - 3. Exposure control plan
 - 4. Universal precautions
 - 5. Engineering and work practice controls
 - 6. Personal protective equipment
 - 7. Housekeeping standards
 - 8. Regulated waste
 - 9. Laundry handling
 - 10. Hepatitis B vaccination requirements
 - 11. What to do if an exposure occurs
 - 12. Biohazard warning labels
 - 13. Medical recordkeeping requirements
 - C. Electrical
 - 1. Electrical terminology
 - 2. Electrical shock, electrical burns, and falls
 - 3. Hazards
 - 4. Protective measures
 - D. Safe Means of Escape
 - 1. Exit routes
 - 2. Emergency action plans
 - 3. Fire prevention plan
 - 4. Fire protection
 - E. Flammable and Combustible Liquids

1. Primary hazards
 2. Classes
 3. Safe handling and storage
- F. Personal Protective Equipment (PPE)
1. Protecting employees from workplace hazards
 2. Engineering controls
 3. Work practice controls
 4. Hazard assessment
 5. PPE examples for eye protection, hearing protection, foot and hand protection, face protection, and body protection
 6. Establishing a PPE program
- G. Hazard Communication (HazCom)
1. Purpose of OSHA's hazard communication standard
 2. Employer responsibilities
 3. HazCom program requirements
 4. Material Safety Data Sheets
- H. Safety and Health Programs
1. Benefits
 2. Major elements of effective programs
 3. Management commitment and employee involvement
 4. Policy and goals
- I. Machine Guarding
1. Main causes of machine accidents
 2. Requirements for safeguards
 3. Types of machine guards
 4. Situations that warrant machine guarding
- J. Walking/Working Surfaces
1. Terminology
 2. General requirements for hazard avoidance
 3. OSHA standards

The above Topics and Scope apply to both lecture and lab course components in an integrated format.

Assignment:

Lecture-Related Assignments:

1. Assigned readings (10-30 pages per week)
2. Problem sets (6-20)
3. Quizzes (5-10)
4. Midterm exam
5. Final exam

Lab-Related Assignments:

1. Weekly problem tasks
2. Tool use demonstrations (5-10)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Problem sets and tasks

Problem solving
10 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Tool use demonstrations

Skill Demonstrations
20 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes, midterm and final exam

Exams
30 - 50%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation

Other Category
0 - 10%
