COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Demonstrate completion of the outcomes and objectives agreed upon independently with the supervising faculty.

Objectives:

Students completing independent studies courses will be able to comprehend and demonstrate basic knowledge in the subject area specified on their application. In addition, they will be expected to apply, analyze, synthesize, and evaluate their knowledge and comprehension of the material.

Topics and Scope:

Supervising faculty will ensure that the topics of this independent study course will be college level material and will include a critical thinking component as appropriate for each particular subject.

Assignment:

1. Reading and writing assignments of varying lengths will be assigned, such as: research papers, critical analysis papers, and/or reaction/reflection essays.
2. Additional assignments as determined by the instructor may include a demonstration of skills acquired through independent work or research.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Writing assignments
