# **COURSE CONTENT**

## **Outcomes and Objectives:**

Upon completion of the course, the students will be able to:

- 1. Identify basic musculoskeletal anatomy.
- 2. Demonstrate the proper skill and technique in use of equipment and circuit training techniques.
- 3. Develop a personalized diet based on personal fitness goals.
- 4. Demonstrate knowledge of muscles trained during specific exercises.
- 5. Identify current fitness level and goals and construct a personalized weight training program based on them.
- 6. Repeating students must demonstrate increased depth and breadth of related skills, with new learning objectives.

## **Topics and Scope:**

- 1. Basic musculo-skeletal anatomy
- 2. Heart rate and how it relates to different levels of fitness
- 3. Functions of weight training machines and exercises
- 4. Techniques of weight training
- 5. Basic nutrition
- 6. Circuit training styles and programs
- 7. Correlation between specific exercises and desired outcomes
- 8. Repeating students must demonstrate increased depth and breadth of related skills, with new learning objectives

## Assignment:

- 1. Written quizzes on basic musculo-skeletal identification
- 2. Calculate body composition
- 3. Strength testing
- 4. General warm up exercises, abdominal exercises and stretches
- 5. Circuit training exercises with machines

- 6. Write a personal, individualized weight training program
- 7. Written report on a weight-training related topic and/or maintaining a workout journal
- 8. Objective exams: Multiple choice, true/false, and short answer
- 9. Performance of exercises 1 hour per week per unit in addition to regularly scheduled class meetings
- 10. Repeating students must demonstrate an increased level of performance.

## Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Individualized workout program, weight training report

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-

computational problem solving skills.

None

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performance and performance exams

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes, multiple choice, true/false, and short answer

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation
