

**APTE 75 Course Outline as of Summer 2025****CATALOG INFORMATION**

Dept and Nbr: APTE 75 Title: 3D LAYOUT LIGHT (RVPA)

Full Title: 3D Layout and Lighting (RVPA)

Last Reviewed: 1/22/2024

Units	Course Hours per Week		Nbr of Weeks		Course Hours Total	
Maximum	3.00	Lecture Scheduled	3.00	17.5	Lecture Scheduled	52.50
Minimum	3.00	Lab Scheduled	0	8	Lab Scheduled	0
		Contact DHR	0		Contact DHR	0
		Contact Total	3.00		Contact Total	52.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 105.00

Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: APTECH 75

**Catalog Description:**

Students will learn dynamic composition and visual development by building backgrounds and environments and using camera angles and perspective to stage effective layouts; they will also apply storytelling elements, research, lighting, color theory, and basic design principles to created work.

This is a Regional Virtual Production Academy (RVPA) course that is not offered at SRJC but is available through one or more of the other five participating colleges of the RVPA collaborative program. Learn more about the RVPA at <https://cs.santarosa.edu/vp>

**Certificate/Major Applicable:**

Both Certificate and Major Applicable

## **COURSE CONTENT**

**Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Plan and construct designs.
2. Construct a three-dimensional (3D) environment using a major 3D software application.
3. Create and describe conceptual visualizations for an animated story that use color, lighting, and composition within a major 3D software application.

**Objectives:**

At the conclusion of this course, the student should be able to:

1. Research appropriate references to aid in conceptual design to build an environment.
2. Create and describe conceptual visualizations for a story that uses color, lighting, and composition.
3. Utilize basic compositing techniques in image-editing software to combine render passes and layers.
4. Analyze the perception of actual light and apply it to 3D environments.

**Topics and Scope:**

- I. Analyzing Research, Storyboards, and Character Designs to Create Conceptual Visualizations
- II. Designing Environments and Compositing Tools

- III. Study of Lighting and Setting Up Lighting Models Based on Different Rendering Engines
- IV. Design Thinking
  - A. Presentations and group feedback
  - B. Approaches to problem-solving
- V. Create Concept Visualizations
- VI. Design and Create Environments
- VII. Create Lighting Rigs within a Set and Setting up Different Scenarios

**Assignment:**

1. Video viewing with written critiques
2. Hands-on projects
3. Research with note-taking
4. Presentations
5. Final exam

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Video viewing with written critiques; Research notes	Writing 5 - 15%
--	--------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Hands-on projects; Presentations	Problem solving 65 - 80%
----------------------------------	-----------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None	Skill Demonstrations 0 - 0%
------	--------------------------------

**Exams:** All forms of formal testing, other than skill performance exams.

Final exam	Exams 5 - 30%
------------	------------------

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Participation	Other Category 0 - 5%
---------------	--------------------------

**Representative Textbooks and Materials:**

- The Five C's of Cinematography. Mascelli, Joseph V. Silman-James Press. 1998 (classic)
- Autodesk Maya 2020: A Comprehensive Guide. 12th ed. Tickoo, Sham. Purdue Univ. and CAD/CIM Technologies. 2020
- Instructor prepared materials
