## **COURSE CONTENT**

**Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Perform measurements and calculations used in carpentry
2. Build floor systems safely using appropriate materials, codes, and tools
3. Build wall systems safely using appropriate materials, codes, and tools

**Objectives:**

At the conclusion of this course, the student should be able to:

1. Understand and apply jobsite safety practices
2. Use measuring tools correctly
3. Understand and apply mathematical calculations used in carpentry
4. Work effectively within a crew structure
5. Demonstrate quality work
6. Understand and apply the materials, tools, and techniques used in floor systems
7. Understand and apply the materials, tools, and techniques used in wall systems
8. Read construction drawings at a basic level
9. Understand and apply fire resilient building techniques

**Topics and Scope:**

- I. Introduction to Carpentry
  - A. Working as part of a crew
  - B. Types of carpentry
    1. House framing
    2. Interior and exterior finish
    3. Concrete forming
    4. Stair building
    5. Cabinetry

- 6. Hardscaping
- II. Review of Safety
  - A. Daily tail-gate safety meeting
  - B. Occupational Safety and Health Administration (OSHA)
  - C. Personal Protective Equipment (PPE)
- III. Measurement and Calculations
  - A. Common measurements in residential building
  - B. Common construction calculations
  - C. Reading a framing plan
- IV. Floor Framing
  - A. Principles of floor framing
  - B. Flooring materials
  - C. Flooring tools
  - D. Building a floor
- V. Wall Framing
  - A. Principles of wall framing
  - B. Wall materials
  - C. Wall building tools
  - D. Building a wall system
- VI. Applicable Building Codes
- VII. Fire Resilient Building Techniques

**Assignment:**

1. Weekly quizzes
2. Group discussion and problem-solving activities
3. Skill demonstration: safe tool use and carpentry techniques
4. Individual project or presentation

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None
------

Writing 0 - 0%
-------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Group problem-solving activities; individual project or presentation
--

Problem solving 10 - 30%
-----------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Skill demonstration
---------------------

Skill Demonstrations 55 - 80%
----------------------------------

**Exams:** All forms of formal testing, other than skill performance exams.

Weekly quizzes

Exams  
10 - 20%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category  
0 - 10%

**Representative Textbooks and Materials:**  
Instructor and department prepared materials
