COURSE CONTENT

Outcomes and Objectives:

Students will:

- A. Be able to describe the basic properties of all ferrous metals.
- B. Be able to describe the process of mining, extraction and refining of ores to metals.
- C. Identify metals using the periodical table of elements based on weights and atomic numbers.
- D. Use handout materials, text and library materials to do research on metallurgical alloys.
- E. Perform basic lab experiments plotting data, measurements of metal density and volumes, for purposes of identifying metals.

Topics and Scope:

1. Introduction to Metallurgy
2. History of Elements
3. Iron and Steel Refining
4. Identifying Ferrous Metals
5. Tensile Test
6. Heat Treatments
7. Quenching Media
8. Hardness Testers
9. Physical/Chemical Metallurgy Grain Structure/Patterns/Lattices
10. Iron/Steel Systems, A.I.S.I., S.A.E., U.S.S., A.W.S.
11. Density Measurements
12. Review/Final

Assignment:

The following is a list of assignments that will determine the final

grade for the students.

A. Homework: to consist of reading assignments in assigned text.

B. Lab work: laboratory assignment to be completed during the lab sessions.

C. Mid-term paper: as per instructions by instructor, consisting of library research.

D. Group project on a metallurgical process (refining, mining, extraction, or production) to be given orally in class.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Lab reports

Writing
20 - 25%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Lab reports

Problem solving
15 - 25%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
55 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
