COURSE CONTENT

Outcomes and Objectives:

The student will:

1. describe four types of viruses and how they behave;
2. configure a virus detection program;
3. detect and remove a virus from the computer;
4. download a virus update from the Internet;
5. describe three types of backup (full, incremental, differential);
6. configure a backup program;
7. define a backup strategy for a typical business;
8. perform each of the three types of disk backups.

Topics and Scope:

1. Virus
 - a. types of viruses
 - b. virus protection techniques
 - c. configure virus protection program
 - d. remove a virus from the computer
 - e. add new virus signatures to virus list
 - f. locate virus software information on the Internet
 - g. download virus update from the Internet
2. Backup
 - a. purpose of backup
 - b. types of backup
 - c. backup alternatives and strategies
 - d. configure backup program
 - e. perform different types of backups
 - f. restore files from backup media

Assignment:

Skill demonstration and written assignment.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

CLASS PERFORMANCE

Skill Demonstrations
20 - 60%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
20 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

ATTENDANCE & CLASS PARTICIPATION

Other Category
9 - 60%
