COURSE CONTENT

Outcomes and Objectives:

Students taking English 25 will be able to:

1. Demonstrate familiarity with the nature of language, language universals, linguistic science (its background, development, and relation to other fields of study), and recent developments in the study of language.
2. Examine philosophical approaches as well as practical insights of modern linguistic science that will aid them in a variety of academic and career pursuits.
3. Apply knowledge of the various branches of linguistic science (as listed below) to a number of different fields of study, including but not limited to English literature, anthropology, sociology, psychology, child development, and education.

Topics and Scope:

Through readings, examinations, and special projects, students will receive a broad introduction to the nature of language and linguistics, including the following topics:

1. phonetics
2. phonology
3. morphology
4. syntax
5. semantics
6. historical linguistics and language change
7. classification of languages
8. brain and language
9. language acquisition (first and second)

10. language and social contexts
11. writing systems
12. animal communication
13. computational linguistics
14. history of English
15. stylistics

Assignment:

Textbook assignments with follow-up quizzes, chapter exercises, supplemental reading and exercises, field observation, visitation to ESL classrooms, and semester projects involving research and field work for those intending to transfer.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Reading reports, Lab reports, Essay exams, Term papers	Writing 20 - 50%
--	---------------------
