**Certificate/Major Applicable:**

Certificate Applicable Course

## **COURSE CONTENT**

**Outcomes and Objectives:**

Upon completion of the course, students will:

1. Use a database system as a records management tool
2. Manage information stored in a variety of media forms
3. Describe micrographics technologies
4. Describe and apply image technology
5. Develop record retention schedules
6. Demonstrate an understanding of records management security systems
7. Demonstrate an understanding of the laws regulating the privacy and legality of sharing information

**Topics and Scope:**

1. Use a database system as a records management tool
  - A. Create, revise, store, and print address lists
  - B. Catalog and retrieve information
2. Manage information stored in a variety of media forms such as CD-ROM, microfilm, and microfiche
  - A. Determine the appropriate storage system for these media
3. Compare and contrast various types of microforms
  - A. List the benefits and limitations of various types of microforms
  - B. Explain the computer output microfilm/microfiche (COM) process and list its advantage
  - C. Explain the advantages of computer-aided retrieval (CAR)
  - D. Identify the equipment components of a micrographics system
4. Describe the techniques and list the benefits of using bar codes in documents
5. Develop records retention schedules

- A. Apply records retention rules
  - B. Apply government regulations for records retention
  - C. Design a records retention schedule
6. Demonstrate an understanding of records management security systems
- A. Describe the processes used in a records management security system
  - B. List the physical, mechanical, and electronic components of a security system, such as data encryption, password protection, virus protection, back-up, and storage
  - C. Explain methods to control physical access to records facilities
  - D. List procedures for controlling access to paper, film, records, and electronic information
  - E. Design and produce a plan to prevent records disaster
  - F. Explain the methods for recovery of records after a disaster
7. Demonstrate an understanding of laws regulating the privacy and legality of sharing information
- A. Develop a scenario in which software programs may be legally duplicated
  - B. Explain the legal implications of releasing unauthorized information both domestically and internationally
  - C. Explain the implications involved in violating the privacy of individuals
  - D. Explain the need for and responsibilities of maintaining confidential records

**Assignment:**

1. Read textbook chapters, define terms, complete end-of-chapter questions and exercises
2. Use a database program as a records management tool
  - A. Create, revise, store, and print exercises
  - B. Catalog and retrieve information
3. Visit offices using microforms, electronic databases, imaging technology, and bar codes
4. Design and produce a plan to prevent records disaster
5. Explain methods to control physical access to records
6. Demonstrate the need for and responsibilities of maintaining confidential records

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, PROJECTS
----------------------------

Writing 20 - 30%
---------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Use of database program

Problem solving  
20 - 50%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams

Skill Demonstrations  
20 - 40%

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items

Exams  
10 - 20%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

ATTENDANCE AND PARTICIPATION

Other Category  
0 - 15%

**Representative Textbooks and Materials:**
