10 points for neatness and organization

Contents: Date, A photograph of the design, a description of what the design is ,the principles and elements used in the design, the materials used, and comments on the design.

Example of a page in the portfolio

Date: January 19, 2017

Design: Design for the home

Materials used: 12 roses, 1 orchid, two aspidistra leaves, moss, foam, container

Principles and elements used: Elements used balance, line, form and color are important in this design. Emphasis on the focal area and movement in the design create harmony and a pleasing aesthetic design.

Comments: This design was harder to construct than it looked. The simplicity was created by careful placement of each component. As there were few flowers and foliages it was important to put the product in the right placement to create balance.
