

ANTHRO-1L

Biological Anthropology Lab

Santa Rosa Junior College – Santa Rosa Campus

Fall 2018 – Section: 0892

Instructor: Dr. Nicole Wilson, email: nwilson@santarosa.edu

Course Dates & Times: M/W 5:30-7:00pm

Room: Emeritus 1594

Office Hours: Mondays 4:30-5:30pm (Santa Rosa Campus, Emeritus 1594) AND Wednesdays 1:45-2:45pm (Petaluma Campus, PC 242)

This is an introductory laboratory course that uses scientific methodology to explore and experiment with topics from Introduction to Biological Anthropology (ANTHRO 1) lectures. Major topics to be covered include cell biology, genetics, human osteology, primate anatomy and social behavior, and the human fossil record. Additional topics may include human variability, medical anthropology, forensic anthropology, environmental challenges to hominids, and human impact on the environment.

Course Outline of Record:

https://portal.santarosa.edu/SRweb/SR_CourseOutlines.aspx?CVID=36379&Semester=20167

STUDENT LEARNING OUTCOMES:

As a result of successful completion of this course, a student will be able to:

- 1) Distinguish scientific methodology from other methods of evaluation or thinking.
- 2) Distinguish a variety of primate and/or hominid evolutionary patterns over time.
- 3) Assemble and organize specimens and/or models used in physical anthropology (skeletal, dental, genetic).
- 4) Evaluate and debate social, cultural, environmental, and other influences on hominid adaptation and survival over time.

Required Texts:

2014. Soluri, K. Elizabeth and Sabrina C. Agarwal. *Laboratory Manual and Workbook for Biological Anthropology: Engaging With Human Evolution*. W.W. Norton & Company.

Course Requirements:

Your grade will be based on a combination of attendance/class participation, concept review worksheets, lab exercises, and three examinations (multiple choice, true/false, fill-in, and short answer).

Participation/Attendance = Engage in class discussions and in-class group work. Come prepared having read material carefully.

Concept Review Worksheets = You are expected to complete the short “concept review questions” worksheets at the end of each chapter after reading the chapter and before coming to class. These worksheets will be **due at the beginning of each class period**. **I will not accept late concept review sheets.**

Lab Exercises = You are expected to read over the chapters and respective labs **BEFORE** coming to class each day. The lab exercises will be submitted to me at the end of each class and include the critical thinking questions at the end of each section. Late lab exercises will result in lower points scored (2pts. for each (class) day late).

Exams (1-3) = Multiple choice, true/false, fill-in and short answer (approx. 100 points each). Exam make-ups will not be allowed unless you have a doctor’s note.

Extra Credit: You will have a few opportunities to earn extra credit points towards your lowest exam score. These extra credit assignments must be complete and on-time in order to receive credit. See the class schedule for extra credit opportunities.

Attendance: You are expected to attend class regularly. You are allowed **ONE** unexcused absence before your grade is affected. You must bring a doctor’s note for absences due to illness. If you miss a class on a day when an exam takes place and have a legitimate excuse (i.e. doctor’s note), you will be allowed to schedule a make-up exam. If you have excessive absences or have a record of nonattendance, I will drop you from the course after I have contacted you via email one time.

Academic Integrity:

Santa Rosa Junior College holds students accountable for the integrity of the work they submit. Students should be familiar with the policies for academic integrity and know that it is their responsibility to learn about instructor and general academic expectations with regard to proper citation of sources in written work. The policy also governs the integrity of work submitted in exams and assignments as well as the veracity of signatures on attendance sheets and other verifications of participation in class activities. Serious sanctions can result from academic dishonesty of any sort. For more information and the complete policy, see the college’s website, specifically, <http://www.boarddocs.com/ca/santarosa/Board.nsf/Public?open&id=policies#>. If I find that you violated the integrity policy, you will receive an F on that assignment, possibly for the course.

Drop/Add Deadlines:

- 8/26/18 - Last day to **register/add** without an instructor's signature or add code
- 9/2/18 - Last day to **drop** a semester-length class and be eligible for a refund.
- 9/9/18 - Last day to **register/add** with an instructor's signature or add code
- 9/9/18 - Last day to **drop** a class without a "W"
- 9/30/18 - Last day to opt for pass/no pass
- 11/18/18 - Last day to **drop** a class with a "W"

Academic Accommodations:

If you need disability related accommodations for this class, please provide the Authorization for Academic Accommodations (AAA letter) from the Disability Resources Department (DRD) to the instructor as soon as possible. If you have not received authorization from DRD, please contact them directly. DRD is located in Analay Village on the Santa Rosa campus, and Jacobs Hall on the Petaluma Campus.

Campus Emergencies:

In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances beyond the instructor's control. Relevant changes to this course can be obtained by contacting me via email or phone.

In the event of an emergency that requires evacuation of the building, please leave the class immediately, but calmly. Our class will meet in parking lot E to make sure everyone got out of the building safely and to receive further instructions. If you are a student with a disability who may need assistance in an evacuation, please see me during my office hours so we can discuss an evacuation plan.

Behavior During Class: I expect you to come to class with an open mind and ready to learn. It can be challenging to consider humans from a strictly *scientific* standpoint, but other perspectives are outside the scope of this class. I expect you to be supportive of your fellow classmate's questions and comments.

Class Disruptions: We are all adults. I expect appropriate behavior during class. This means your cell phone is on "silent" and is kept in your pocket or bag during class. **IF I SEE YOU USING YOUR PHONE DURING CLASS, YOU WILL RECEIVE A "0" FOR THAT DAY'S ATTENDANCE.** This also means that your headphones or cell phone earpieces are removed from your ears, you are awake, you are not reading (including the textbook), you are not chatting with your classmates while I am lecturing, and you are using laptops appropriately during class (only for note-taking). Everyone deserves an uninterrupted learning experience, so please do your part. I also expect you to arrange childcare for your children and to not bring them into class.

Grade Percentage Breakdown:

Attendance/Participation:	10%
Concept review sheets:	10%
Lab Exercises:	20%
Exam #1:	20%
Exam #2:	20%
Exam #3:	20%

Grading Scale:

90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Class Schedule**Week One:**

August 20	Welcome, Course Requirements
August 22	Biological Anthropology and Evolutionary Theory
	<i>Reading:</i> Lab 1 (pg. 5-12)
	<i>Assignment Due:</i> Lab 1 Concept Review Questions

Week Two:

August 27	Biological Anthropology and Evolutionary Theory
August 29	Biological Anthropology and Evolutionary Theory

Week Three:

September 3	HOLIDAY – NO CLASS
September 5	Genetics
	<i>Reading:</i> Lab 2 (pg. 29-39)
	<i>Assignment Due:</i> Lab 2 Concept Review Questions

Week Four:

September 10	Genetics
September 12	Inheritance
	<i>Reading:</i> Lab 3 (pg. 57-65)
	<i>Assignment Due:</i> Lab 3 Concept Review Questions

Week Five:

September 17	Inheritance
September 19	Forces of Evolution
	<i>Reading:</i> Lab 4 (pg. 77-86)
	<i>Assignment Due:</i> Lab 4 Concept Review Questions

Week Six:

September 24	Forces of Evolution
September 26	Classification
	<i>Reading:</i> Lab 9 (pg. 229-238)
	<i>Assignment Due:</i> Lab 9 Concept Review Questions
	Exam Review

Week Seven:

October 1

October 3

Exam #1

Introduction to the Skeleton

Reading: Lab 5 (pg. 103-111)

Assignment Due: Lab 5 Concept Review Questions

Week Eight:

October 8

October 10

Introduction to the Skeleton

Bones of the Skeleton

Reading: Lab 6 (pg. 123-138 – Axial Skeleton)

Assignment Due: Lab 6 Concept Review Questions

Week Nine:

October 15

October 17

Bones of the Skeleton

Reading: Lab 6 (pg. 138-149 – Appendicular Skeleton)

Bioarchaeology/Forensic Anthropology

Reading: Lab 7 (pg. 163-183)

Assignment Due: Lab 7 Concept Review Questions

Week Ten:

October 22

October 24

Bioarchaeology/Forensic Anthropology

Human Variation

Reading: Lab 8 (pg. 201-211)

Assignment Due: Lab 8 Concept Review Questions

Week Eleven:

October 29

October 31

Human Variation

Exam Review

Exam #2

Week Twelve:

November 5

November 7

Living Primates

Reading: Lab 10 (pg. 249-264)

Assignment Due: Lab 10 Concept Review Questions

EXTRA CREDIT OPTION: Lab 10 Critical Thinking

Question 3 (Due November 14)

Primate Behavior

Reading: Lab 11 (Pg. 277-289)

Assignment Due: Lab 11 Concept Review Questions Comparative

Week Thirteen:

November 12

November 14

HOLIDAY – NO CLASS

Comparative Primate Anatomy

Reading: Lab 12 (pg. 305-314)

Assignment Due: Lab 12 Concept Review Questions

Week Fourteen:

November 19

Comparative Primate Anatomy

EXTRA CREDIT OPTION: Lab 12 Critical Thinking
Questions 4-5 (Due November 26)

November 21

Primate Evolution

Reading: Lab 13 (pg. 331-343)

Assignment Due: Lab 13 Concept Review Questions

Week Fifteen:

November 26

Identifying the Human Lineage

Reading: Lab 14 (pg. 359-368)

Assignment Due: Lab 14 Concept Review Questions

EXTRA CREDIT OPTION: Lab 14 Critical Thinking

Question 4 (Due December 3)

November 28

Australopithecines and Early Homo

Reading: Lab 15 (Pg. 381-390)

Assignment Due: Lab 15 Concept Review Questions

EXTRA CREDIT OPTION: Lab 15 Critical Thinking

Question 5 (Due December 5)

Week Sixteen:

December 3

Australopithecines and Early Homo

December 5

Later Members of the Genus Homo

Reading: Lab 16 (pg. 405-418)

Assignment Due: Lab 16 Concept Review Questions

Week Seventeen:

December 10

Later Members of the Genus Homo

December 12

Wrap-up, Exam Review

Monday, December 17 - Final Exam (4:00pm-6:45pm)
Emeritus Hall 1594
