

Math 1C – Calculus 3

Fall 2021, Section 1354

TTh 9:00 am – 10:30 am (plus weekly asynchronous videos to watch)

Instructor: Nora Wheeler

Contact Information:

Email: nwheeler@santarosa.edu

Text: 707-836-3201

Phone: 707-527-4747

Office: Kunde 231

You can also send me a message through Canvas.

Please include your name and class with all communication.

Office Hours:

Monday through Thursday: 10:30 am – 11:30 am

Monday and Tuesday: 1:30 pm – 2:00 pm

If these times don't work for you, I'm happy to make appointments at other times.

Course Information

The course information, including prerequisite information and student learning outcomes, can be found in the [SRJC Math 1C Course Outline of Record](#).

Text:

Calculus, Early Transcendentals, 8th edition, by James Stewart
(WebAssign is not required.)

Technology:

You will use a calculator and/or computer on a few homework assignments, however you will not be allowed to use technology of any type on the quizzes and final so start practicing that 3D graphing (and arithmetic!).

Attendance:

You must follow the SRJC Plan for a Safe Return to Campus. See Canvas for more information.

The following statements are from the SRJC attendance policy:

- Students are expected to attend, and in the case of online classes, participate in, all sessions of the course in which they are enrolled.
- A student may be dropped from any class when that student's absences exceed ten percent (10%) of the total hours of class time.

Due to health and safety concerns, I will be more flexible with attendance. If you will be exceeding the allowable absences, please let me know of your situation.

If you wish to drop the class, it is your responsibility to do so.

If you are unable to complete the class due to extenuating circumstances, an "incomplete" grade will only be considered if your current average is at least 70%.

Your Responsibilities

- Be respectful and kind to others. Accept and appreciate our differences.
- Attend all classes, if possible. You may be dropped from the class if you miss more than 4 classes. Please contact me if you have extenuating circumstances.
- Stay mentally engaged during class and ask questions if you have them. The more interactive a class is, the better the experience is for everyone.
- Keep up with the homework and get help if you need it. There are lots of people who want to help you succeed. Don't wait until you are too far behind to seek help.
- Work together with your classmates and help each other succeed.
- Check Canvas announcements at least once each day or have notifications of announcements sent to you by text or email.
- Do all work in this class with honesty and integrity.
- Have confidence in your abilities and have high expectations for yourself. It's not going to be easy, but you can do this!

Getting Help

- My office hours – Please come see me if you have math questions or if you need help finding other resources.
- SRJC Math Lab, MESA, and Tutorial Center – See Canvas for more information about what services are available.
- Private Tutors – The Math Department office maintains a list of private tutors.
 - <https://mathematics.santarosa.edu/tutor-list>
- If you need disability related accommodations for this class, contact the Disability Resources Department (DRD) using the link below. You will need to provide the Authorization for Academic Accommodations (AAA letter) from the DRD to me via email as soon as possible if you have not already done so. You may also speak with me privately during office hours about your accommodations.
 - <https://drd.santarosa.edu/>
- Sites where you can find help with technology, counseling, financial aid, food, housing, physical and mental health services, ...
 - Online Student Services: <https://onlinestudentservices.santarosa.edu/>
 - Resources for Remote Learning: <https://www.santarosa.edu/srjc-remote-resources>
 - Physical and Mental Health Services: <https://shs.santarosa.edu/how-make-appointment> (Get help if you need it. People care about you!)

Homework

Homework will be assigned daily and will be due at the beginning of class, two class days after it was assigned. You are responsible for doing and submitting all assignments, but not all assignments will be graded. You may submit your homework in person or online through Canvas as an uploaded pdf. If submitting online, you should verify that the file can be opened in Canvas and is legible.

Homework must be neat, in order, easy to read, show all work, and be your own work or you will lose partial or all credit.

For each graded assignment, four problems will be graded on accuracy, logical flow, and the proper use of mathematical notation. Of the graded assignments, your lowest 3 scores will not be used in your final grade calculation.

If you are having trouble with the homework, get help as soon as possible.

Late homework will not be accepted.

Classwork

When time allows, you may be given classwork problems to complete. These assignments will be due at the beginning of the next class meeting.

Quizzes and Final Exam

There will be five quizzes and a final taken in class. Only your highest three quiz scores will be used in your final grade calculation. The tentative dates are listed below. (Note that these dates may change.) **No make-up quizzes will be given.**

| | Content | Tentative Date |
|------------|----------------------|--|
| Quiz #1 | Sections 14.1 – 14.4 | Thursday, September 9 |
| Quiz #2 | Chapter 14 | Thursday, September 23 |
| Quiz #3 | Sections 15.1 – 15.4 | Thursday, October 14 |
| Quiz #4 | Chapter 15 | Thursday, October 28 |
| Quiz #5 | Sections 16.1 – 16.7 | Thursday, December 2 |
| Final Exam | Chapters 14 – 16 | Thursday, December 16 7:00 AM – 9:45 AM |

Grade

Your grade will be determined using the following distribution and letter grade assignments. Your final grade will be rounded to the nearest whole number. So an 89.5% rounds up to 90% and is an A, while an 89.4% rounds down to 89% and is a B.

| | | | |
|-------------------------|-----|-----------|---|
| Homework/Classwork: | 15% | 90 – 100% | A |
| Quizzes (3 @ 20% each): | 60% | 80 – 89% | B |
| Final Exam: | 25% | 70 – 79% | C |
| | | 60 – 69% | D |
| | | below 60% | F |

Your final grade is FINAL. Unless you feel I have made an error, please do not contact me to discuss your grade after the final exam. Being “close” to the next letter grade is not a reason for me to change your grade.

Academic Honesty

It is in your best interest to complete this class with honesty and integrity. The knowledge and analytical abilities you will gain by doing so will serve you in future classes and in life.

On your homework assignments, I encourage you to work with other students, get help from tutors, and even go searching online for help, but the work you submit must ultimately be your own. Copying answers from solutions manuals, websites, apps, or other students is considered an act of academic dishonesty, as is letting another student copy your work.

You are to complete quizzes and the final exam without books, notes, videos, apps, websites, calculators, other people, or any other resource unless the rules specifically state otherwise.

If it is determined that you have not followed the stated rules for any exam, quiz, or homework submission, you will receive a zero. There may also be an Academic Dishonesty Report filed with the Vice President of Student Services. The Vice President may then take additional disciplinary action ranging from reprimand to expulsion.

- You can learn more about the Academic Integrity policy and procedures at: <https://rightsresponsibilities.santarosa.edu/academic-integrity>

Interruptions

In the event of evacuations or power outages or any other calamity, please see the college website, <https://www.santarosa.edu/>, for updates on the situation. I will do my best to keep you informed, but you can always text me at 707-836-3201 if you have concerns. If we are unable to have class in person, you may be required to attend class and/or take tests in a Zoom meeting with your camera on, as well as submit work online.

This syllabus may need to be altered due to unforeseen events or situations. You will be notified if this becomes necessary and I will make every attempt to ensure that the changes are fair and reasonable.

Important Dates

| | |
|--|---------------------------|
| Last Day to Add without instructor's approval: | Sunday, August 22, 2021 |
| Last Day to Add with instructor's approval: | Sunday, September 5, 2021 |
| Last Day to Drop and be eligible for enrollment/course fee refund: | Sunday, August 29, 2021 |
| Last Day to Drop without a 'W' symbol: | Sunday, September 5, 2021 |
| Last Day to Drop with a 'W' symbol: | Sunday, November 14, 2021 |
