O	Explanation of Assessments	<div><div>1. Discussion Posts = There will be graded on-line discussions throughout the course. Each discussion will take place over a two week period. You have until 5:00 pm of the first week when the discussion goes live to post your first post. You then have until Thursday of the next week to respond to <u>two</u> classmates by 5:00 pm. Because we can’t always deliver our best work, the lowest discussion grade will be dropped. <u>I read these discussion posts closely, so make sure you proofread your posts, that the commentary is coherent, and that you integrate that week’s readings into your post(s).</u></div></div>																				

	<ol style="list-style-type: none">2. <i>Quizzes</i> = Beginning in week 2 you will have a quiz once a week. These quizzes are there to ensure that you have an incentive to stay on top of your readings. They are also there so that the instructor can be sure that you are comprehending these readings. There will not be makeup quizzes. Because life happens the two lowest quiz grades will be dropped.3. <i>Midterm</i> = The midterm consists 20 multiple choice questions and 4 short answer questions (each answer should be about a paragraph in length).4. <i>Final Exam</i> = The final exam will consist of 2 short answer questions (each answer should be about a paragraph in length) and an essay.
P Academic Integrity Policy	All written work is to be original; plagiarism of any kind will result in a failing grade on that assignment. Students who plagiarize or cheat may be suspended – for one or two class meetings by the instructor – and referred to the Conduct Dean for discipline sanction, in cases of egregious violation. Please see Policy 3.11 for Academic Integrity.
Q Accommodation and Access for Students with a Disability	It is the mission of the Santa Rosa Junior College to support inclusive learning environments. If there are aspects of the instruction or design of this course that result in barriers to your inclusion or to accurate assessment of achievement—such as time-limited exams, inaccessible web content, or the use of non-captioned videos—please notify the instructor as soon as possible. Students are also welcome to contact the Disability Resources Department (DRD). DRD is a resource for students that provides authorization for academic accommodations, training and access to assistive technology, and collaborates on strategies for academic success.
R Course Website and Technology	<p>Students will use the Canvas course website for assignment instructions, finding source materials, submitting assignments, viewing classmates' work, sharing resources, and viewing grades.</p> <p>You need to make sure you have the following software installed and working properly on your computer:</p> <ul style="list-style-type: none">• Adobe Reader• QuickTime Player• Open Office (If needed) <p>You should ensure that all your programs are up to date. If you have Zoom installed on your computer, please ensure you regularly update it to the latest software.</p>
S Course Tips Policies	<ul style="list-style-type: none">• <i>Readings</i> – Course readings are an integral part of the course and should not be taken lightly. Considering this is an online course, readings form the bulk of the course content and are necessary to do well on the exams. That is why you should stay on top of your readings and take notes on them closely. You should complete the reading(s) assigned for each week at the beginning of each module.• <i>Make up Quizzes and Exams</i> – The scheduled exam dates are firm. In case of an emergency situation (e.g. illness, death in the family), inform the instructor at least twenty-four hours in advance of the scheduled exam. A missed exam lacking appropriate documentation will count as zero points in the final grade.• <i>Technology and Submissions</i> – Last minute computer or typing crises (corrupted USB keys, crashing hard-drives, etc.) are not considered as acceptable emergencies for not submitting work.

- *Netiquette* – When engaging in online discussion, remain courteous at all times. Remember that you are communicating with other humans; there is a real person with real feelings on the receiving end of your email or discussion post. While the exchange of diverse thoughts and ideas is important in a scholarly environment, this should happen in a constructive and respectful manner, especially when engaging with someone who has different ideas. Capitalizing whole words is generally seen as shouting and is often perceived as offensive by the reader. Be careful when using sarcasm and humor. Since there are no social cues like facial expressions or body language in an on-line environment, such remarks can come across as hurtful or offensive. Finally, writing should be professional and consist of complete sentences, be free of grammatical errors, and avoid spelling mistakes.
